The staff's position on the matter can be found on the Israel Securities Authority website: [Click here](#)*

**Free Text (Explanatory Note):**

For the calculation of the holding percentage on a fully diluted basis, the exercise of 18,431,360 long-term warrants that can be exercised via a Cashless mechanism (net exercise) for 3,096,296 exercise shares was taken into account. Since the exercise of the warrants is conditional on reaching a target price set for each series, the number of exercise shares was calculated based on the higher of (1) the target price set for the series; or (2) the closing share price as of December 17, 2025. Below are the share prices used for the calculation of the number of exercise shares:

- 14,966,334 warrants, based on a share price of 19.88 NIS, which is the exercise target price for these warrants;
- 824,770 warrants, based on a share price of 25.78 NIS, which is the exercise target price for these warrants;
- 797,340 warrants, based on a share price of 29.24 NIS, which is the exercise target price for these warrants;
- 1,842,916 warrants, based on a share price of 22.72 NIS, which is the exercise target price for these warrants; The number of exercise shares that will actually be allocated as a result of the long-term warrants will vary depending on the actual share price at the time of exercise (if it is higher than the target price).
