Explanations

1. It is also required to report holdings of other securities (that are not bonds), including other securities that are not traded.
2. In cases where reporting is required for the holding of bonds not convertible into shares, you may attach the registry as a PDF file as specified at the end of section B, instead of entering the data; per Staff Position 104-21: [Link](#).
3. The PDF file must match the structure and contents of the Excel file published by the Authority. It should include at minimum the information in the Excel.
4. If an interested party holds more than one type of security in the corporation, detail the holding percentage (also on full dilution) in a single row for all securities held.
5. This form must detail the holdings of all interested parties, including those whose holdings did not change.
6. If the interested party is a controlled company with substantial operations for the corporation, separate holdings between shares acquired before and after the entry into force of the Companies Law, 1999, and indicate dormant shares.
7. If the interested party is a corporation, also state the name of the ultimate controlling shareholder(s). If there is no controlling shareholder, provide details of the interested parties in it.
8. If a senior officer holds 5% or more of the corporation's issued share capital or voting power, show the holdings in the table under "Interested Parties" above.
9. If the interested party or senior officer holds securities in a controlled company of his which has significant operations for the corporation, provide these details in the "Notes" field.
