Foresight Announces Plan for Reverse Share Split

Ness Ziona, Israel – August 15, 2025 - Foresight Autonomous Holdings Ltd. (Nasdaq and TASE: FRSX) (“Foresight” or the “Company”), an innovator in 3D perception systems, announced today that it plans to conduct a reverse share split of the Company’s outstanding ordinary shares, no par value per share, at a ratio of 1-for-7 which is expected to be implemented at market open on the Tel-Aviv Stock Exchange on August 24, 2025 and on the Nasdaq Capital Market on August 25, 2025.

There will be no change to the existing ratio of the number of ordinary shares represented by the Company’s American Depositary Shares (“ADSs”). However, as a result of the reverse share split, the ADS price is expected to increase proportionally, although the Company can give no assurance that the ADS price after the reverse share split will be equal to or greater than the ADS price on a proportionate basis. The Company believes that the reverse share split will help the Company to maintain compliance with Nasdaq listing requirements. However, the Company can give no assurance that this goal will be achieved.

As of the effective date for the reverse share split, the Company’s ADSs will continue to be traded on the Nasdaq under the symbol “FRSX” with a new CUSIP Number.

The reverse share split will not impact any shareholder’s percentage ownership of the Company or voting power. No fractional new ADSs will be issued in connection with the reverse share split. Instead, fractional entitlements to new ADSs will be aggregated and sold by the Depositary Bank and the net cash proceeds from the sale of the fractional ADS entitlements (after deduction of fees, taxes and expenses) will be distributed to the applicable ADS holders by the Depositary Bank.
