Gilat Selected by Synterra to Extend Broadband Telecommunications throughout the Russian Far East

-The network will expand residential broadband services under the operator's USO obligations -

Petah Tikva, Israel, July 13 2011 -- Gilat Satellite Networks Ltd. (NASDAQ: GILT) today announced that it has been selected by Synterra, Russia's national communications carrier, to provide satellite communications equipment for the extension of a broadband network throughout Siberia and the Russian Far East. The network is set to support the operator's USO goals in the region, providing residents of remote communities with essential connectivity to broadband internet and telephony services.

As part of the agreement, Synterra, a long-time Gilat partner in Russia, has committed to implement Gilat's technology in 1500 remote sites.

"We are proud to continue our ongoing partnership with Synterra, and view this project as a clear vote of confidence in our technology and service support. We look forward to supporting Synterra's efforts in extending broadband connectivity throughout the rugged geography of the Siberian and Russian Far East districts", said Arie Rozichner, Gilat's RVP Eurasia.
