

Gilat Peru Wins \$12.8 Million Contract with Peruvian Ministry of Education to Connect Thousands of Schools Nationwide

- SkyEdge II-c solution featuring award winning Aries VSAT will be used to connect 2,600 rural schools to broadband Internet services –

Petah Tikva, Israel, 28 February, 2013 -- Gilat Satellite Networks Ltd. (NASDAQ: GILT), a worldwide leader in satellite networking technology, solutions and services, today announced it was awarded a three year contract by the Peruvian Ministry of Education to provide SkyEdge II-c hub and 'Aries' VSAT equipment, installation, maintenance and technical support, aimed to provide Internet connectivity to 2,600 schools nationwide.

The contract, valued at \$12.8 million, is part of the Ministry's Directorate General of Educational Technologies' (DIGETE) initiative to bring internet connectivity to thousands of Peruvian school children in an effort to reduce educational disparities in the country.

Gilat's SkyEdge II-c Aries is a compact high-throughput VSAT, designed to enable high speed broadband services and FUP (Fair Use Policy) while meeting cost efficiencies which are at the heart of government sponsored projects.

"Broadband-over-satellite forms a crucial component of our goal to provide an increasing number of school children with access to computer technology," said Sandro Marcone Flores, Head of the Directorate General of Educational Technologies. "We are delighted to have Gilat's strong track record support us in this important national initiative."

"This award complements the tens of thousands of schools around the world already supported by Gilat's VSATs," said Danny Fridman, Gilat Peru and Colombia CEO. "We have been an active partner for the Peruvian government in several key communication initiatives in the country and we are proud to be part of improving the quality of education for Peruvian children."

About Gilat

Gilat Satellite Networks Ltd (NASDAQ, TASE: GILT) is a leading provider of products and services for satellite-based broadband communications. Gilat develops and markets a wide range of high-performance satellite ground segment equipment and VSATs, with an increasing focus on the consumer and Ka-band market. In addition, Gilat enables mobile SOTM (Satellite-on-the-Move) solutions providing low-profile antennas, next generation solid-state power amplifiers and modems. Gilat also provides managed network and satellite-based services for rural telephony and Internet access via its subsidiaries in the United States, Peru and Colombia.

With over 25 years of experience, and over a million products shipped to more than 85 countries, Gilat has provided enterprises, service providers and operators with efficient and reliable satellite-based connectivity solutions, including cellular backhaul, banking, retail, e-government and rural communication networks. Gilat also enables leading defense, public security and news organizations to implement advanced, on-the-move tactical communications on board their land, air and sea fleets using Gilat's high-performance SOTM solutions.
