Gilat to Highlight its X-Architecture for HTS at Satellite 2016, Following Recent Deals with Softbank for LTE Backhaul and Gogo for In-Flight Connectivity (IFC)

*Company to demonstrate how a single platform can support
an entire range of applications, including consumer broadband,
cellular backhaul and IFC solutions*

Petah Tikva, Israel, March 03, 2016 -- Gilat Satellite Networks Ltd. (NASDAQ, TASE: GILT), a worldwide leader in satellite networking technology, solutions and services, announced today that it intends to highlight its X-Architecture – optimized for High Throughput Satellite (HTS)-based fixed and mobility applications, including consumer broadband, cellular backhaul and IFC solutions – at Satellite 2016, March 8-10 at the Gaylord National Convention Center, National Harbor, Maryland, Booth # 1423.

SkyEdge II-c X-Architecture was designed to address both traditional Virtual Network Operator (VNO) models as well as newer models already suited to HTS-based space segment capacity.

“We enable satellite operators and service providers to maximize the HTS opportunity with our unique X-Architecture. Our recent wins with Gogo and Softbank are testament to the superiority of our architecture to support our customers' needs for highest performance,” stated Dov Baharav, Gilat’s Interim CEO and Chairman of the Board.

“At the event we will showcase a broad range of field-proven solutions, all supported by one network that offers our customers the flexibility to expand their business as they see fit – on land, at sea or in the air.”

At the event, Gilat intends to display its:

- **SkyEdge II-c X-Chassis** – A High-density, high-efficiency, multi-spot-beam hub, powered by X-Architecture
- **SkyEdge II-c VSATs** – Gilat's diverse portfolio of multi-service terminals
- **IFC solutions** – Versatile dual-band ER6000-A antenna, SkyEdge II-c Taurus MODMAN (modem manager) and Wavestream Aerostream transceivers

Gilat executives are scheduled to participate in two key panel discussions:

Hagay Katz, AVP, Head of VSAT Line of Business, will take part in a panel discussion, entitled "From Voice to Dominant Data: Satellite Mobile Backhaul", in the Annapolis 1-2 conference hall on March 8th at 1:45 pm.

Ron Levin, Director Strategic Accounts, will take part in a panel discussion, entitled "China, India and Russia: Civil and Commercial Satellite Applications Connecting the World's Largest Geographic Expanses", in the Baltimore 1-2 conference hall on March 9th at 9:45 am.

About Gilat

Gilat Satellite Networks Ltd (NASDAQ, TASE: GILT) is a leading provider of products and services for satellite-based broadband communications. Gilat develops and markets a wide range of high-performance satellite ground segment equipment and VSATs, with an increasing focus on the consumer and Ka-band market. In addition, Gilat enables mobile SOTM (Satellite-on-the-Move) solutions providing low-profile antennas, next generation solid-state power amplifiers and modems. Gilat also provides managed network and satellite-based services for rural telephony and Internet access via its subsidiaries in Peru and Colombia.

With over 25 years of experience, and over a million products shipped to more than 90 countries, Gilat has provided enterprises, service providers and operators with efficient and reliable satellite-based connectivity solutions, including cellular backhaul, banking, retail, e-government and rural communication networks. Gilat also enables leading defense, public security and news organizations to implement advanced, on-the-move tactical communications on board their land, air and sea fleets using Gilat's high-performance SOTM solutions. Gilat controlling shareholders are the FIMI Private Equity Funds. For more information, please visit us at www.gilat.com
