GILAT PRESS RELEASE

Gilat Signs Agreement to Enable a Central Asian Government to Provide Digital Services over Satellite

SkyEdge II-c will facilitate connection of rural villages to the government network and access to remote digital services that bridge the digital divide

Petah Tikva, Israel, August 2, 2022 -- Gilat Satellite Networks Ltd. (Nasdaq: GILT, TASE: GILT), a worldwide leader in satellite networking technology, solutions, and services, announced today the Company signed an agreement to provide a SkyEdge II-c hub and hundreds of VSATs to a government in Central Asia.

The Gilat equipment will be used to connect rural villages to the government network, serve as a backup communication channel for disaster preparedness, and provide remote services to citizens.

Using the services enabled by Gilat's proven SATCOM technology, citizens all over the country, even in the farthest most remote regions, will be able to interact with all governmental bodies, including the police, the land registry, licensing authorities, notarization, and more.

"Gilat technology is being leveraged to connect people and provide for the efficient provisioning of services, regardless of geographic distances," said Michal Aharonov, Chief Commercial Officer at Gilat. "Once again, Gilat's SkyEdge II-c platform is bridging the digital divide and helping to improve the lives of people throughout the world."

About Gilat

Gilat Satellite Networks Ltd. (NASDAQ: GILT, TASE: GILT) is a leading global provider of satellite-based broadband communications. With 30 years of experience, we design and manufacture cutting-edge ground segment equipment, and provide comprehensive solutions and end-to-end services, powered by our innovative technology. Delivering high value competitive solutions, our portfolio comprises of a cloud based VSAT network platform, high-speed modems, high performance on-the-move antennas and high efficiency, high power Solid State Amplifiers (SSPA) and Block Upconverters (BUC).

Gilat's comprehensive solutions support multiple applications with a full portfolio of products to address key applications including broadband access, cellular backhaul, enterprise, in-flight connectivity, maritime, trains, defense and public safety, all while meeting the most stringent service level requirements.
