GILAT PRESS RELEASE

SES and Gilat Extend Global Strategic Cooperation with Orders for GEO VHTS and O3b mPOWER NGSO Constellation

Global business opportunities materialized with SkyEdge IV, Gilat's multi-service, multi-orbit platform

Petah Tikva, Israel, September 6, 2022 -- Gilat Satellite Networks Ltd. (Nasdaq: GILT, TASE: GILT), a worldwide leader in satellite networking technology, solutions, and services, announced today that the Company was awarded multimillion-dollar orders from SES as the companies extend global strategic cooperation. SES, in cooperation with Gilat, is expanding its SATCOM business reach utilizing Gilat's SkyEdge IV multi-orbit, multi-service capabilities.

These activities represent follow-on orders stemming from the strategic partnership formed with the selection of Gilat's SkyEdge IV platform for SES's second-generation medium earth orbit satellite system, O3b mPOWER, and for SES's geostationary very high throughput satellite (VHTS), SES-17. SkyEdge IV is a key enabler to such business as it operates simultaneously on both GEO and the MEO constellation.

With these new orders, the companies are increasing their reach across multiple verticals, including maritime mobility, cellular backhaul, and fixed data. This increased reach is enabled with the deployment of the SkyEdge IV platform at additional gateways worldwide.

"We are proud to provide SES with SkyEdge IV, Gilat's most advanced technological platform to support its growing multi-orbit business objectives," said Amir Yafe, VP of Mobility & Global Accounts at Gilat. "Working together as strategic partners, we're able to take an active role in addressing the growing demand for satellite communications services all over the world for both fixed and mobility applications."

About Gilat

Gilat Satellite Networks Ltd. (NASDAQ: GILT, TASE: GILT) is a leading global provider of satellite-based broadband communications. With 30 years of experience, we design and manufacture cutting-edge ground segment equipment, and provide comprehensive solutions and end-to-end services, powered by our innovative technology. Delivering high value competitive solutions, our portfolio comprises of a cloud based VSAT network platform, high-speed modems, high performance on-the-move antennas and high efficiency, high power Solid State Amplifiers (SSPA) and Block Upconverters (BUC).

Gilat's comprehensive solutions support multiple applications with a full portfolio of products to address key applications including broadband access, cellular backhaul, enterprise, in-flight connectivity, maritime, trains, defense and public safety, all while meeting the most stringent service level requirements.
