## Press Release

### **Gilat Receives Over \$18 Million in Orders for its In-Flight Connectivity Solutions**

*These orders further solidify Gilat's position in the IFC market and positions it as a single source provider for a wide range of IFC technologies and services*

**Petah Tikva, Israel, December 30, 2024** — Gilat Satellite Networks Ltd. (NASDAQ, TASE: GILT), a worldwide leader in satellite networking technology, solutions, and services, announced today that the Company has secured over \$18 million in orders for IFC solutions. These orders are mainly for Gilat SkyEdge platforms, related services and SSPAs. The equipment and services are scheduled for delivery within the next 12 months.

These orders highlight the confidence in Gilat's advanced technology and solutions to address the unique challenges and opportunities in IFC services. Gilat's flexible architecture enables reliable satellite connectivity, supporting the rapid expansion of IFC networks.

"These orders reflect the growing demand for advanced connectivity solutions for the IFC market, which is a strategic market for us" said Amir Yafe, VP of Mobility & Global Accounts at Gilat. "Gilat's technology is designed to equip service providers with the scalability and performance needed to meet this demand head-on."

## About Gilat

Gilat Satellite Networks Ltd. (NASDAQ: GILT, TASE: GILT) is a leading global provider of satellite-based broadband communications. With over 35 years of experience, we create and deliver deep technology solutions for satellite, ground, and new space connectivity and provide comprehensive, secure end-to-end solutions and services for mission-critical operations, powered by our innovative technology. We believe in the right of all people to be connected and are united in our resolution to provide communication solutions to all reaches of the world.

Our portfolio includes a diverse offering to deliver high-value solutions for multiple orbit constellations with very high throughput satellites (VHTS) and software-defined satellites (SDS). Our offering is comprised of a cloud-based platform and high-performance satellite terminals; high-performance Satellite On-the-Move (SOTM) antennas; highly efficient, high-power Solid State Power Amplifiers (SSPA) and Block Upconverters (BUC) and includes integrated ground systems for commercial and defense, field services, network management software, and cybersecurity services.

Gilat's comprehensive offering supports multiple applications with a full portfolio of products and tailored solutions to address key applications including broadband access, mobility, cellular backhaul, enterprise, defense, aerospace, broadcast, government, and critical infrastructure clients all while meeting the most stringent service level requirements.
