Press Release

Gilat Awarded More Than \$7 Million to Provide the U.S. Army With Services in Support of Mission-Critical Communications

This initial award can potentially grow up to \$70 million as part of the agreement spanning a period of up to 5 years

Petah Tikva, Israel, July 16, 2025 — Gilat Satellite Networks Ltd. (NASDAQ: GILT, TASE: GILT), a worldwide leader in satellite networking technology, solutions and services, today announced that Gilat DataPath (DataPath Inc.) a wholly owned subsidiary of Gilat Defense, has been awarded a contract to provide field and technical services in support of the U.S. Army through a prime contractor. The award includes a base program of more than \$7 million with options to extend the program up to five years, reaching an estimated revenue of up to \$70 million.

Under the awarded program, Gilat DataPath will deliver global field and support services to the U.S. Army Program Executive Office for Command, Control and Communications Networks (PEO C3N). The program award results from a competitive process under the Global Tactical Advanced Communication Systems II (GTACS II) vehicle.

“In the domain of delivering innovative satellite communications services to modernize defense capabilities, Gilat DataPath is a world leader,” said **Nicole Robinson, President of Gilat DataPath**. “This large multi-year award further underscores the dynamic capabilities and critical nature of what Gilat DataPath can deliver to such a unique and trusted end user.

About Gilat

Gilat Satellite Networks Ltd. (NASDAQ: GILT, TASE: GILT) is a leading global provider of satellite-based broadband communications. With over 35 years of experience, we develop and deliver deep technology solutions for satellite, ground, and new space connectivity, offering next-generation solutions and services for critical connectivity across commercial and defense applications. We believe in the right of all people to be connected and are united in our resolution to provide communication solutions to all reaches of the world.

Together with our wholly owned subsidiaries—Gilat Wavestream, Gilat DataPath, and Gilat Stellar Blu—we offer integrated, high-value solutions supporting multi-orbit constellations, Very High Throughput Satellites (VHTS), and Software-Defined Satellites (SDS) via our Commercial and Defense Divisions. Our comprehensive portfolio is comprised of a cloud-based platform and modems; high-performance satellite terminals; advanced Satellite On-the-Move (SOTM) antennas and ESAs; highly efficient, high-power Solid State Power Amplifiers (SSPA) and Block Upconverters (BUC) and includes integrated ground systems for commercial and defense markets, field services, network management software, and cybersecurity services.

Gilat's products and tailored solutions support multiple applications including government and defense, IFC and mobility, broadband access, cellular backhaul, enterprise, aerospace, broadcast, and critical infrastructure clients all while meeting the most stringent service level requirements.
