Press Release

Gilat Awarded Approximately \$60 Million to Provide Digital Inclusion Solutions in Peru

New infrastructure will deliver 200 Mbps internet to public institutions, meeting the demands for a connected society

Petah Tikva, Israel, July 22, 2025 — Gilat Satellite Networks Ltd. (NASDAQ: GILT, TASE: GILT), a worldwide leader in satellite networking technology, solutions and services, announced today that its Peruvian subsidiary, Gilat Perú, has been awarded approximately \$60 million in orders from Pronatel (Programa Nacional de Telecomunicaciones), Peru's national telecommunications program. The orders are for upgrading the Regional Broadband infrastructure across the regions of Apurímac, Huancavelica and Ayacucho. Migration is expected to take place over the next 12 months and the service will be delivered over 4 years.

This major infrastructure modernization will bring high-speed internet of 200 Mbps directly to nearly 800 public institutions, including schools, health centers, and police stations across 280 localities. The award marks a significant step forward in closing the digital divide and empowering rural communities in Peru with the connectivity they need to access education, healthcare, and public services, laying a strong, scalable foundation for future bandwidth growth in rural areas that need it most.

The project reflects Gilat's continued partnership with the Peruvian State and long-standing commitment to digital access for all, strengthening public services in some of the most remote areas of Peru.

"With extensive experience implementing complex connectivity projects throughout Peru, we are uniquely qualified to carry out this critical migration in record time," said **Arieh Rohrstock, Corporate Senior Vice President and President, Gilat Peru**. "Together with Pronatel, we're advancing our shared goal of increasing digital inclusion in the most remote regions of the country by delivering the high-speed infrastructure needed to support essential public services."

About Gilat

Gilat Satellite Networks Ltd. (NASDAQ: GILT, TASE: GILT) is a leading global provider of satellite-based broadband communications. With over 35 years of experience, we develop and deliver deep technology solutions for satellite, ground, and new space connectivity, offering next-generation solutions and services for critical connectivity across commercial and defense applications. We believe in the right of all people to be connected and are united in our resolution to provide communication solutions to all reaches of the world.

Together with our wholly owned subsidiaries—Gilat Wavestream, Gilat DataPath, and Gilat Stellar Blu—we offer integrated, high-value solutions supporting multi-orbit constellations, Very High Throughput Satellites (VHTS), and Software-Defined Satellites (SDS) via our Commercial and Defense Divisions. Our comprehensive portfolio is comprised of a cloud-based platform and modems; high-performance satellite terminals; advanced Satellite On-the-Move (SOTM) antennas and ESAs; highly efficient, high-power Solid State Power Amplifiers (SSPA) and Block Upconverters (BUC) and includes integrated ground systems for commercial and defense markets, field services, network management software, and cybersecurity services.

Gilat's products and tailored solutions support multiple applications including government and defense, IFC and mobility, broadband access, cellular backhaul, enterprise, aerospace, broadcast, and critical infrastructure clients all while meeting the most stringent service level requirements.
