Press Release

Gilat Receives an Additional \$25 Million Agreement to Advance Digital Inclusion in Peru

Additional digital inclusion project in the Cusco region to deliver connectivity to public institutions, expanding access to essential services

Petah Tikva, Israel, August 26, 2025 — Gilat Satellite Networks Ltd. (NASDAQ: GILT, TASE: GILT), a worldwide leader in satellite networking technology, solutions and services, announced today that its Peruvian subsidiary, Gilat Perú, has signed an additional \$25 million agreement with Pronatel (Programa Nacional de Telecomunicaciones), Peru's national telecommunications program. This award is for the modernization of the Regional Broadband network in the Cusco region. The migration is planned over the next 12 months, with services to be delivered for a period of five years.

The upgraded network will provide high-speed internet of 200 Mbps to nearly 208 public institutions, including schools, health centers, and police stations, and 69 public free WiFi Hotspots. This digital inclusion initiative will improve access to education, healthcare, and public safety services, while laying the groundwork for future bandwidth growth in rural areas that need it most.

This new project builds on Gilat's ongoing partnership with the Peruvian State and underscores the company's commitment to bringing advanced connectivity to even the most remote and hard-to-reach regions.

"Our decades of experience delivering large-scale connectivity initiatives across Peru positions us to complete this migration quickly and effectively," said **Arieh Rohrstock, Corporate Senior Vice President and President, Gilat Peru**. "In partnership with Pronatel, we are expanding digital inclusion by bringing the high-speed infrastructure required to strengthen critical public services in Peru's most remote communities."

About Gilat

Gilat Satellite Networks Ltd. (NASDAQ: GILT, TASE: GILT) is a leading global provider of satellite-based broadband communications. With over 35 years of experience, we develop and deliver deep technology solutions for satellite, ground, and new space connectivity, offering next-generation solutions and services for critical connectivity across commercial and defense applications. We believe in the right of all people to be connected and are united in our resolution to provide communication solutions to all reaches of the world.

Together with our wholly owned subsidiaries—Gilat Wavestream, Gilat DataPath, and Gilat Stellar Blu—we offer integrated, high-value solutions supporting multi-orbit constellations, Very High Throughput Satellites (VHTS), and Software-Defined Satellites (SDS) via our Commercial and Defense Divisions. Our comprehensive portfolio is comprised of a cloud-based platform and modems; high-performance satellite terminals; advanced Satellite On-the-Move (SOTM) antennas and ESAs; highly efficient, high-power Solid State Power Amplifiers (SSPA) and Block Upconverters (BUC) and includes integrated ground systems for commercial and defense markets, field services, network management software, and cybersecurity services.

Gilat's products and tailored solutions support multiple applications including government and defense, IFC and mobility, broadband access, cellular backhaul, enterprise, aerospace, broadcast, and critical infrastructure clients all while meeting the most stringent service level requirements.
