## Press Release

### **Gilat Receives Over \$7 Million Orders to Supply Transportable SATCOM Terminals to the U.S. Army**

*Gilat Defense continues to supply WGS-certified DKET solution to strengthen mission-critical connectivity for U.S. defense operations*

**Petah Tikva, Israel, September 30, 2025** — Gilat Satellite Networks Ltd. (NASDAQ: GILT, TASE: GILT), a worldwide leader in satellite networking technology, solutions and services, announced today that Gilat DataPath has received orders of more than \$7 million to provide additional Transportable SATCOM Terminals to the U.S. Army through a prime contractor. The orders include multiple units of the DKET 3421 transportable terminal along with associated support services, with deliveries scheduled for completion before the end of 2025.

Gilat DataPath's WGS-certified DKET 3421 is a combat-proven, rugged terminal designed to meet the most demanding mission requirements. Featuring multi-carrier capability and a scalable modem architecture of up to 32 modems, the system enables high-throughput, resilient connectivity for forward-deployed forces. With defense organizations increasingly focused on flexible and rapidly deployable communications, the DKET platform has become a trusted solution for hub-class SATCOM infrastructure in dynamic environments.

"This latest award reflects the U.S. Army's continued confidence in our DKET technology as a vital enabler of secure and relocatable SATCOM infrastructure for our men and women in uniform," said **Nicole Robinson, President of Gilat DataPath**. "We are proud to deliver a solution that has repeatedly demonstrated its value in the field, and to continue supporting the Army's mission-critical communications needs."

## About Gilat

Gilat Satellite Networks Ltd. (NASDAQ: GILT, TASE: GILT) is a leading global provider of satellite-based broadband communications. With over 35 years of experience, we develop and deliver deep technology solutions for satellite, ground, and new space connectivity, offering next-generation solutions and services for critical connectivity across commercial and defense applications. We believe in the right of all people to be connected and are united in our resolution to provide communication solutions to all reaches of the world.

Together with our wholly owned subsidiaries Gilat Wavestream, Gilat DataPath, and Gilat Stellar Blu, we offer integrated, high-value solutions supporting multi-orbit constellations, Very High Throughput Satellites (VHTS), and Software-Defined Satellites (SDS) via our Commercial and Defense Divisions. Our comprehensive portfolio is comprised of a cloud-based platform and modems, high-performance satellite terminals, advanced Satellite On-the-Move (SOTM) antennas and ESAs, highly efficient, high-power Solid State Power Amplifiers (SSPA) and Block Upconverters (BUC) and includes integrated ground systems for commercial and defense markets, field services, network management software, and cybersecurity services.

Gilat's products and tailored solutions support multiple applications, including government and defense, IFC and mobility, broadband access, cellular backhaul, enterprise, aerospace, broadcast, and critical infrastructure clients, all while meeting the most stringent service level requirements.
