Press Release

Gilat Receives More Than \$6 Million in Orders to Support Low Earth Orbit Constellations

High-Performance SSPAs Deliver Robust Uplink Power for LEO Gateways

Petah Tikva, Israel, November 20, 2025 – Gilat Satellite Networks Ltd. (NASDAQ: GILT, TASE: GILT), a worldwide leader in satellite networking technology, solutions, and services, announced that its Commercial Division received orders exceeding \$6 million for Gilat Wavestream’s Gateway Solid State Power Amplifiers (SSPAs) to support Low Earth Orbit (LEO) constellations. Deliveries are expected over the next 12 months.

Gilat Wavestream’s high efficiency and high reliability SSPAs are designed to meet the demanding requirements of next-generation satellite networks. The SSPAs provide high-performance connectivity, ensuring seamless communication even in remote or challenging terrains.

“These orders reflect the strong demand for Gilat’s innovative technology and the confidence our customers place in the quality and performance of our products,” said **Edgar Khachatryan, President, Gilat Wavestream**. “Our SSPAs are built to power next generation architectures with the robustness and reliability that service operators expect.”

About Gilat

Gilat Satellite Networks Ltd. (NASDAQ: GILT, TASE: GILT) is a leading global provider of satellite-based broadband communications. With over 35 years of experience, we develop and deliver deep technology solutions for satellite, ground, and new space connectivity, offering next-generation solutions and services for critical connectivity across commercial and defense applications. We believe in the right of all people to be connected and are united in our resolution to provide communication solutions to all reaches of the world.

Together with our wholly owned subsidiaries, Gilat Wavestream, Gilat DataPath, and Gilat Stellar Blu, we offer integrated, high-value solutions supporting multi-orbit constellations, Very High Throughput Satellites (VHTS), and Software-Defined Satellites (SDS) via our Commercial and Defense Divisions. Our comprehensive portfolio is comprised of a cloud-based platform and modems; high-performance satellite terminals; advanced Satellite On-the-Move (SOTM) antennas and ESAs; highly efficient, high-power Solid State Power Amplifiers (SSPA) and Block Upconverters (BUC) and includes integrated ground systems for commercial and defense markets, field services, network management software, and cybersecurity services.

Gilat's products and tailored solutions support multiple applications including government and defense, IFC and mobility, broadband access, cellular backhaul, enterprise, aerospace, broadcast, and critical infrastructure clients all while meeting the most stringent service level requirements.
