## EXHIBIT INDEX

<u>EXHIBIT NO.</u>	<u>DESCRIPTION</u>
99.2	Immediate Report - Claim together with a motion to certify the claim as a class action, which was filed against various electronic trade websites in Israel and against Goldmind Media Ltd., a private company controlled by the Company.

**Immediate Report - Class Action**

On April 22, 2013, the Company received a claim together with a motion to certify the claim as a class action, which was filed against various electronic trade websites in Israel and against Goldmind Media Ltd., a private company controlled by the Company ("Goldmind"; and collectively, the "Defendants"). The claim was filed with the Central District Court.

According to the Plaintiff, the Defendants violated the law and misled consumers and users of electronic trade websites ("Surfers"), who took part in "private sale" activities (the: "Activity"). The Plaintiff alleges that as part of the Activity, the Surfers have made price quotes for purchasing various products without being aware of the actual "target prices," resulting in, allegedly, *inter alia*, the deception and overcharging of consumers.

The aggregate amount of the class action is approximately NIS 101 million.

At the present stage, due to the fact that Goldmind is a company without any business activity (and it's under voluntary liquidation process), and which sold its electronic trade activity ("P1000" Activity) over two years ago, the Company is examining whether it is necessary and required to apply the process to Goldmind or the purchasers of "P1000" Activity (in whole or in part).

The Company is studying the claim and is unable, at the present stage, to evaluate the claim's likelihood of success and/or its ultimate implication, if any, for the Company and/or Goldmind.
