**Explanations:**

1. If the change affects more than one security, specify the effect per security on a separate line.
2. Change date – all changes of the same type, in the same security, made on one day are summed in one line. Distinguish between changes made via the clearinghouse and those done directly in the company's books.
3. For a decrease, use the symbol “-”.
4. All quantity fields should state the number of securities, not ILS par value.

If only a change in the register of holders has occurred (without a change in quantity), describe it here:
