### **Explanations:**

1. It is also required to report holdings of other securities (not BONDS), including those not listed for trading.
2. If a report is required on holdings in BONDS that cannot be converted to shares, it is possible to attach a PDF file with the holding status in the designated field at the end of section B, instead of data entry in the form, all as specified in Staff Legal Position No. 104-21: [Link](#)
3. The PDF file should be prepared in form and content matching the Excel file published by the Authority and attached to the staff position. The PDF file shall contain at least the information appearing in the Excel file.
4. If an interested party holds more than one type of security in the corporation, all holdings (including fully diluted) shall be specified in a single row, adjusted for all securities held by them.
5. This form must list the holdings of all interested parties, including those whose holdings did not change.
6. When the interested party is a held company with significant activity to the corporation, split the holdings into shares acquired before the Israeli Companies Law came into force (which confer rights in equity and voting), and dormant shares acquired thereafter.
7. If the interested party is a corporation, also specify the full name(s) of the ultimate controlling shareholder(s). If there is no controlling shareholder, details of the interested parties shall be provided.
8. If a senior officer holds five percent or more of the equity or voting rights, their holdings should be detailed in the "Interested Parties" table above.
9. If an interested party or senior officer also holds securities in a held company of theirs with significant business, their holdings must be specified in the "remarks" field under the holder's details.
