For those unable to participate, the teleconference will be available for replay on the Company's website at <http://www.kenon-holdings.com/> beginning 24 hours after the call.

About Kenon

Kenon is a newly-incorporated holding company that operates dynamic, primarily growth-oriented businesses. The companies it owns, in whole or in part, are at various stages of development, ranging from established, cash generating businesses to early stage development companies. Kenon's businesses consist of:

- IC Power (100% interest) – a leading owner, developer and operator of power generation facilities in the Latin American, Caribbean and Israeli power generation markets;
- Qoros (50% interest) – a China-based automotive company;
- ZIM (32% interest) – an international shipping company;

- Tower (24% of the currently outstanding shares of Tower) – a global foundry manufacturer, with shares traded on NASDAQ and the TASE; and
- Primus (91% interest) – an early stage developer of alternative fuel technology.

Kenon's primary focus is to grow and develop its primary businesses, IC Power and Qoros. Following the growth and development of its primary businesses, Kenon intends to provide its shareholders with direct access to these businesses, when we believe it is in the best interests of its shareholders for it to do so based on factors specific to each business, market conditions and other relevant information. Kenon intends to support the development of its non-primary businesses, and to act to realize their value for its shareholders by distributing its interests in its non-primary businesses to its shareholders or selling its interests in its non-primary businesses, rationally and expeditiously. For further information on Kenon's businesses and strategy, see Kenon's publicly available filings, which can be found on the SEC's website at www.sec.gov.
