About Kenon

Kenon is a holding company that operates dynamic, primarily growth-oriented businesses. The companies it owns, in whole or in part, are at various stages of development, ranging from established, cash-generating businesses to early stage development companies. Kenon's businesses consist of:

- IC Power (100% interest) – a leading owner, developer and operator of power generation and distribution facilities in the Latin American, Caribbean and Israeli power markets;
- Qoros (50% interest) – a China-based automotive company;
- ZIM (32% interest) – an international shipping company; and
- Primus (91% interest) – an early stage developer of alternative fuel technology.

Kenon's primary focus is to grow and develop its primary businesses, IC Power and Qoros. Following the growth and development of its primary businesses, Kenon intends to provide its shareholders with direct access to these businesses, when we believe it is in the best interests of its shareholders for it to do so based on factors specific to each business, market conditions and other relevant information. Kenon intends to support the development of its non-primary businesses, and to act to realize their value for its shareholders by distributing its interests in its non-primary businesses to its shareholders or selling its interests in its non-primary businesses, rationally and expeditiously. For further information on Kenon's businesses and strategy, see Kenon's publicly available filings, which can be found on the SEC's website at www.sec.gov.
