## Explanations:

1. If the change affects more than one security, the effect of the change should be detailed in a separate row for each security.
2. Change date – all changes of the same type, in the same security, performed on the same day, will be summarized in one row. For this purpose – changes performed through the TASE clearinghouse should be separated from those performed directly in the company's books.
3. For a decrease, add the sign "-".
4. In all quantity fields, the quantity of securities should be filled in, not the par value in NIS.
