Explanations:

1. If the change affects more than one security, the effect of the change must be detailed in a separate row for each security.
2. Date of change – all changes of the same type, in the same security, performed on one day, will be summarized in one row. For this purpose – changes performed via the TASE clearinghouse must be separated from changes performed directly in the company's books.
3. The change – for a decrease, add the sign "-".
4. In all quantity fields, the quantity of securities must be filled in, not the par value in NIS.

If only the register of holders of the corporation's securities changed (without a change in the quantity of securities):

Description of the nature of the change: _____ Explanation: All details of the transaction or action that caused the change in the register must be described.
