## **TAG, a Pioneer in "Best Execution Trade Analysis", Selects Magic's iBOLT For Its Infrastructure Upgrade**

Irvine, California, May 3rd, 2005 - Magic Software Enterprises (Nasdaq: MGIC), a leading provider of business integration and development technology, is pleased to announce its relationship with the New York-based Transaction Auditing Group, Inc. (TAG) a best of breed service provider, pioneer and leading innovator of best execution trade analysis. TAG has recently installed Magic's iBOLT Integration Suite to rapidly develop and deploy new and enhanced services to its extensive client base.

As the leader in independent best execution trade analysis, TAG offers a range of products that enable exchanges, brokers and market makers to measure their performance against competitors and the industry. TAG maintains connectivity to all major marketplaces, market centers, intermediaries, and others, allowing their clients to take control of their best execution performance, avoid costly compliance infractions, and gain a valuable competitive advantage.

Alan Shapiro, CEO of TAG, commented, " The integration of iBOLT software is one of the preparatory steps our organization is taking to meet the inevitable new market regulations. At the same time, iBOLT will allow us to create and maintain a state-of-the-art infrastructure, add further value to our products, and better serve our clients."

Magic's iBOLT Integration Suite includes such features as: user-friendly GUI tools, including wizards, drag-and-drop, seamless connection with enterprise applications, and an open standards-based development framework; the ability to leverage other already in-place IT investments; advanced metrics gathering that enable the enterprise to adapt and optimize on-going business processes; and flexible, scalable, and future-proof qualities that are unmatched in the iBOLT solution.

"TAG's recent initiative highlights the powerful capabilities of iBOLT," commented Oren Inbar, CEO of Magic Software Enterprises, Inc. "Placing probes and sensors in critical business applications is a must for any real time Enterprise, and iBOLT performs this task and others, seamlessly and easily. This transaction with TAG secures our entrance into the financial services sector, which Magic is strategically targeting throughout 2005."

### **About The Transaction Auditing Group**

TAG is a pioneer in the field of independent "best execution" trade analysis, regulatory, and customized reporting. TAG utilizes real-time market data from the nation's

exchanges, proprietary software and regulatory criteria in the creation of its metrics. TAG products are deemed the most reliable, comprehensive, and independent assessment of execution quality in the securities industry. TAG analyses are available for retail and institutional trades of all sizes in Listed, NASDAQ, Bulletin Board and Pink Sheet securities, and Listed Equity and Index Options. For more information visit the website at: [www.tagaudit.com](http://www.tagaudit.com).
