Magic Software Receives Industry Recognition

By SAP and Leading Industry Analyst

Magic received ISV Partner Leadership in Innovation 2005 award from SAP

OR YEHUDA, ISRAEL (February 12, 2006) -- Magic Software Enterprises Ltd. (NASDAQ: MGIC), a leading provider of state-of-the-art business integration and development technology, announced today that it recently received the SAP® Business One ISV Partner Leadership in Innovation 2005, award from SAP Americas. In addition Magic Software was positioned in the Visionary quadrant in the 2006 Gartner Magic Quadrant for the Integrated Services Environment Market.

At the recent SAP Field Kick-off Meeting (FKOM 06) held in San Antonio (TX), Magic Software was presented with the ISV Partner Leadership in Innovation 2005 award for embodying SAP's applistructure idea and bringing it to the market with SAP Business One.

In the recent Gartner Magic Quadrant for the Integrated Services Environment (ISE) Market, Magic was positioned in the ISE visionary quadrant. According to Gartner, Inc., visionaries are vendors that have a clear vision of market direction and are focused on preparing for that, but they can still improve in terms of optimizing service delivery. An ISE is the development environment for composite applications. It is an integrated development platform or framework that is focused on developing applications using a composite metaphor based on SOA and process centricity through lightweight BPM techniques.

In the context of SAP, Magic's iBOLT Special Edition for SAP Business One enables the development of Composite Applications by assembling and orchestrating services provided by SAP Business One.

"Magic Software has developed a new and innovative solution and opened new opportunities for SAP Business One," stated Dan Kraus, Vice President, SAP Business One at FKOM 2006. "They have allowed our customers to gain additional value from their SAP solutions more quickly and efficiently."

"We feel both the placement in the Gartner Magic Quadrant along with the recognition from SAP reinforces Magic's technologies as the answer for today's business challenges. Our abilities in the Integrated Service Environment will be even further enhanced with the upcoming release of eDeveloper V10" said David Assia, Chairman and acting CEO of Magic Software. " In addition, we believe that our 2005 channel efforts with SAP will bear significant returns in 2006."

About Magic Software Enterprises

Magic Software provides a Service Oriented Platform (Application Integration, Business Process Management and Composite Applications) to rapidly develop, change and deploy solutions integrated with existing and legacy systems. Magic Software enables enterprises to
