CONTENTS

This report on Form 6-K of MAGIC SOFTWARE ENTERPRISES Ltd. consists of the following documents, which are attached hereto and incorporated by reference herein:

1. The State of Israel's Ministry of the Interior Chooses Magic Software's uniPaaS Solution

The State of Israel's Ministry of the Interior Chooses Magic Software's uniPaaS Solution

Elad Software Systems, Magic Software's partner, will migrate the Ministry of the Interior's current applications to uniPaaS

Or-Yehuda, Israel, February 28, 2011 – Magic Software Enterprises Ltd. (NASDAQ: MGIC), a global provider of cloud and on-premise application platform and business integration solutions, today announced that its business partner, Elad Software Systems, will migrate the Israeli Ministry of the Interior's current applications to uniPaaS. This migration will benefit local users and field controllers using mobile terminals.

With uniPaaS, the Ministry of the Interior will have an updated applications infrastructure that quickly enables the rapid adoption of new technologies, allows easy maintenance and works through a clear and intuitive user interface. The new platform will allow field teams to access the system via mobile devices, including cellular equipment. This solution will achieve both cost and time savings of up to 80% when compared to other solutions. Elad Software Systems will conclude the entire project within two months.

"We needed to find a solution that would let us develop our own applications quickly and easily, as well as taking care of the more immediate requirement to upgrade our current information systems," said Moshe Abramson, CIO of the Ministry of the Interior. "This project reflects our aspirations for increasing our efficiency by working with professional business partners to acquire the best and most advanced technologies."

"Elad Software Systems has extensive experience with these types of projects, and looks forward to making itself available for continued cooperation with the Ministry of Interior, assisting with the system maintenance as well as development and infrastructure related issues," said Dagan Halevi, Division Manager of Elad Software Systems.

"As Elad Software Systems's business partner, we are embarking on another challenging project designed to meet the Ministry of the Interior's needs for the 21st century," added Guy Bernstein, acting Chief Executive Officer of Magic Software. "Our advanced technology, combined with Elad Software Systems's vast experience, means that the Ministry of the Interior will have a first-rate applications infrastructure that also stands ready to meet any challenges that might arise in the future."

About the Ministry of the Interior

The State of Israel's Ministry of the Interior is responsible for the planning and implementation of national policy in areas such as local government, planning and construction, population registry, and emergency services. For more information, visit www.moin.gov.il
