Press Release

Kerensen Consulting, Cloud Leader in France, Standardizes on Magic xpi Integration Platform for Its salesforce.com Customers

Or Yehuda, Israel, September 17, 2013 – Magic Software Enterprises Ltd. (NASDAQ: MGIC), a global provider of software platforms for enterprise mobility, cloud applications, and business integration, announced today that Kerensen Consulting, France's cloud leader is standardizing on Magic xpi Integration Platform for its salesforce.com customers.

"Many businesses are transitioning to cloud computing to improve agility and lower costs," says Michel Assouline CEO of Kerensen Consulting. "By integrating Salesforce with ERP and other enterprise applications, we help our customers increase productivity and revenues, and gain a real-time 360 degree view of their customers and their business for improved customer service and better decision making."

"We chose the Magic xpi Integration Platform due to its ease of use, comprehensive library of certified connectors to leading enterprise systems including Salesforce, SAP, Oracle, Microsoft, and IBM, and its ability to integrate on-premise, legacy and cloud applications," added Assouline.

"As a Magic partner for the past three years and having used Magic xpi to complete Salesforce integration projects for more than a dozen customers, including L'Occitane, Stallergenes, Autosur, Loxam and Valeo Services, we are confident that Magic's technology, support and roadmap will enable us to best serve our customers and our business – today and into the future," concluded Assouline.

As part of the enhanced partnership, Kerensen has created a Center of Expertise on the Magic xpi platform to lead projects on business process transformation (CRM, ERP, Social Networking, etc.) to the cloud. The center is meant to provide Kerensen employees with the tools, knowledge base and support they need to implement major cloud transformation projects.

"With over 320 Salesforce cloud deployments to date, Kerensen is France's clear leader in the growing market for cloud transformation services. We are excited that Kerensen Consulting has chosen to make Magic xpi an integral part of their business offering," said Eric Choppe, Managing Director of Magic Southern Europe. "Kerensen will also be able to leverage the same Magic skills to take advantage of our enterprise mobility solution running on the same technology stack."

About Kerensen Consulting
