#### **Explanations:**

1. If the change affects more than one security, the impact should be listed for each security separately.
2. Change date – all changes of the same type, in the same security, carried out on the same day, are summed together in one line.  
Note: differentiate between changes via the TASE Clearing House and direct entries into the company's books.
3. For decreases, the sign "-" should be used.
4. For all quantity fields, indicate the quantity of securities, not NIS par value.
