Explanations:

1. If the change affects more than one security, the effect of the change should be detailed in a separate row for each security.
2. Date of change – all changes of the same type, in the same security, performed on the same day, should be summarized in one row. For this purpose – changes performed via the TASE clearing house should be separated from those performed directly in the company's books.
3. The change – for a decrease, add the sign "-".
4. All quantity fields must indicate the number of securities, not NIS par value.
