**Re: Immediate Report**

As stated in section 28.2 of the Company's Periodic Report for 2024<sup>1</sup> (hereinafter: **the Periodic Report**) and also in the

Company's Immediate Report of December 30, 2024<sup>2</sup>, the board of directors set a growth target for the Company such that the annual

growth target of the Company for 2025 was set at approximately \$160 million (reflecting growth at a rate of about 45% in the Company's revenues compared to the growth target set for 2024).

According to unaudited financial data, which has not yet been reviewed and/or examined by the Company's accountants,

as of the date of this report, the Company's revenues from sales in 2025 (up to the publication date of this report) are estimated at approximately \$168 million (hereinafter: the Company's unaudited revenues for 2025). The scope of these revenues (assuming they are confirmed after the completion of the audit that will be conducted by the Company's accountants during

the work on the Company's Periodic Report for 2025), reflects a growth rate greater than 46% in the Company's revenues,

compared to the Company's revenues from sales in 2024 which amounted to approximately \$115 million, as stated in the Periodic Report.

Accordingly, on January 5, 2026, the board of directors of the Company decided to set the annual growth target of the Company

for 2026 so that the growth target will amount to approximately \$275 million (reflecting a growth rate of about 64% in the Company's revenues compared to the unaudited revenues for 2025 and a growth rate of about 72% in the Company's revenues compared to the growth target for 2025). As a matter of caution, it should be noted that the growth target

set for 2026 is a target set by the board of directors, but despite the fact that in the past, notwithstanding the challenging targets set by the board of directors, the Company has met these targets, this does not constitute a commitment by the Company to meet this target.

It should be emphasized that the information mentioned above regarding the Company's revenues for 2025 and the achievement of the growth target of

the Company's revenues for 2025 constitutes forward-looking information, as defined in the Securities Law, 1968. The information mentioned above is based on estimates, assessments and preliminary review only of the Company's financial data for 2025 (which have not yet been fully reviewed and which have not yet been approved by

the Company's board of directors and have not yet been reviewed, audited or examined by the Company's accountants).

These assessments

and estimations are not solely under the Company's control and constitute non-final figures (based on preliminary review)

and therefore the Company's actual results may differ from the above (even materially),

among other things, due to the fact that the preparation of the Company's annual reports has not yet begun and naturally
