99.1 Press Release: NICE Systems Exceeds \$1 Billion in Bookings for 2013, Dated January 13, 2014

NICE Systems Exceeds \$1 Billion in Bookings for 2013

RA'ANANA, ISRAEL, January 13, 2014 – NICE Systems (NASDAQ: NICE) today announced that for 2013 it surpassed \$1 billion in bookings for the first time in its history. The company will mark its record achievement and communicate its 2014 sales initiatives at its global sales meetings taking place this month in Asia and the U.S.

Zeevi Bregman, President and CEO, NICE Systems, said, "At the beginning of 2013, we set a goal to exceed \$1 billion in bookings, and I am pleased to report that we reached our target. This record breaking year for bookings was made possible by the continued strength in our analytics-based advanced applications. During this year, we also saw the launch of many new and innovative solutions, along with new technology platforms. These achievements would not have been possible without the relentless commitment and hard work of the NICE team."

The company will provide further details of its 2013 results when it announces its fourth quarter and full-year 2013 results on February 5. A conference call and webcast will follow the announcement of the results. Details of the conference call and webcast will be provided within the next few weeks.
