

NICE inContact CXone Selected for 2300 Seat Cloud Transformation

Global research and technology innovator selects CXone to unify systems, gain agility and transform customer experience while driving down costs

Salt Lake City, December 17, 2018 – NICE inContact, a NICE (Nasdaq: NICE) business, today announced that a global research and technology company that serves customers in more than 130 countries is moving 2300 agents to [NICE inContact CXone](#) – the world's #1 cloud customer experience platform – after an exhaustive review of cloud options.

The technology innovator, with five divisions spread across more than 20 locations, selected NICE inContact CXone to replace on-premises technology. With CXone advanced application capabilities, the company aims to unify systems, gain agility, and transform customer experience while driving down costs.

The company was looking to replace its outdated and inflexible on-premises Automatic Call Distribution (ACD) technology with a more nimble cloud contact center solution. A successful pilot showed how quickly agents could be migrated and productive with CXone, and how the open cloud architecture simplified convoluted workflows. Working with NICE inContact established confidence in CXone and its ability to unify disparate systems – including multiple CRM (customer relationship management) instances – in order to increase productivity and deliver true omnichannel customer experiences, all while driving down costs.

"We're pleased CXone was chosen by this innovative research and technology company for this large scale, comprehensive deployment," said Paul Jarman, CEO NICE inContact. "This win demonstrates our expertise in meeting complex needs across multiple locations with an agile, unified solution."

Jarman continued, "Today's highly competitive customer experience economy calls for brands in all industries to elevate their game. We're seeing accelerated adoption of NICE inContact CXone by organizations of all sizes that are transforming to the cloud. Enterprises are primed to benefit from CXone cloud customer experience platform that powers immersive and engaging customer experiences that drive down costs while building loyalty, advocacy and wallet share."

Large, global contact centers are increasingly turning to NICE inContact CXone to transform customer experiences based on its proven scalability, reliability, security and functionality. CXone is an extensible, elastic, and open cloud platform that provides flexibility, enables integration with any CRM, ERP (enterprise resource planning) or custom application, and supports rapid and ongoing innovation to differentiate service offerings. Customers who select NICE inContact CXone are looking for a robust contact center solution to help them win in the experience economy by delivering exceptional customer and agent experiences that attract and retain customers and grow revenue. CXone is an integrated and open cloud customer experience platform which enables customer service agents to respond faster and act smarter, delivering a smooth omnichannel customer experience. Only CXone unifies best-in-class Omnichannel Routing, Analytics, Workforce Optimization, Automation and Artificial Intelligence—all on an Open Cloud Foundation.

Forward-Looking Statements

This press release contains forward-looking statements as that term is defined in the Private Securities Litigation Reform Act of 1995. Such forward-looking statements, including the statements by Paul Jarman are based on the current beliefs, expectations and assumptions of the management of NICE Ltd. (the Company). In some cases, such forward-looking statements can be identified by terms such as believe, expect, may, will, intend, project, plan, estimate or similar words. Forward-looking statements are subject to a number of risks and uncertainties that could cause the actual results or performance of the Company to differ materially from those described herein, including but not limited to the impact of the global economic environment on the Company's customer base (particularly financial services firms) potentially impacting our business and financial condition; competition; changes in technology and market requirements; decline in demand for the Company's products; inability to timely develop and introduce new technologies, products and applications; difficulties or delays in absorbing and integrating acquired operations, products, technologies and personnel; loss of market share; an inability to maintain certain marketing and distribution arrangements; and the effect of newly enacted or modified laws, regulation or standards on the Company and our products. For a more detailed description of the risk factors and uncertainties affecting the company, refer to the Company's reports filed from time to time with the Securities and Exchange Commission, including the Company's Annual Report on Form 20-F. The forward-looking statements contained in this press release are made as of the date of this press release, and the Company undertakes no obligation to update or revise them, except as required by law.
