

NICE Actimize Wins FTF News “Best Financial Crime Prevention Technology” Category Award

The 2019 Technology Innovation Awards honor software, services and systems that help firms withstand an onslaught of state-of-the-art financial crime

Hoboken, NJ, May 28, 2019 – For the second consecutive year, **NICE Actimize, a NICE (Nasdaq: NICE)** business and the industry leader in Autonomous Financial Crime Management, was named “Best Financial Crime Prevention Technology” category winner in Financial Technologies Forum / FTF News 2019 Technology Innovation Awards. The final award winners for this year’s competition were determined by votes cast online by FTF News’ readers and industry participants.

In describing the category, FTF News stated, “The financial crime prevention technology award shines the light upon software, services and systems that help firms withstand an onslaught of state-of-the-art crime.” During the past year, NICE Actimize debuted numerous innovative platforms and solutions categories in financial crime and compliance, across anti-money laundering, enterprise fraud and financial markets compliance, in support of Autonomous Financial Crime Management.

NICE Actimize’s innovations in financial crime solutions also led to shortlisting across four additional categories, highlighting product leadership and advanced applications of artificial intelligence and machine learning, managed analytics and cloud-based offerings, in such categories as compliance, trade reconstruction, cutting-edge solutions, and artificial intelligence initiatives.

Craig Costigan, CEO NICE Actimize said, “We thank the readers of FTF News, along with our customers and partners, for demonstrating their continuing confidence in our commitment to our financial crime solutions and platforms in anti-money laundering, enterprise fraud and financial markets compliance. As we transform the marketplaces we serve with advancements in artificial intelligence, machine learning and the cloud, we will continue to apply modern technologies to optimize operations, lower costs and reduce reputational risk.”

Maureen Lowe, Founder and President, FTF News said, “This year’s competition was our largest awards event ever, featuring more than 75 nominated organizations. Congratulations to those firms, such as NICE Actimize, that demonstrated leadership and innovation in a highly competitive ops field. Our winners should be proud of these accomplishments.”

About Financial Technologies Forum:

Financial Technologies Forum, LLC (FTF) is the place to learn from, market to and interact with the people and companies that are driving the post-trade processing industry. As with all information-based industries, trade processing is in a state of rapid change. New regulations, market pressures, new types of securities — not to mention the accelerating changes in technology — have made it more and more difficult to keep current, much less get ahead of the curve. FTF is committed to being a timely and reliable source for thought-leading opinions and insights, valuable news and effective training for everyone in post-execution operations. For vendors to this industry, the forum provides an efficient, cost-effective platform from which to generate top-of-mind awareness among their target markets via content marketing, sponsorships, webinars, advertising and much more.

Forward-Looking Statements

This press release contains forward-looking statements as that term is defined in the Private Securities Litigation Reform Act of 1995. Such forward-looking statements, including the statements by Mr. Costigan are based on the current beliefs, expectations and assumptions of the management of NICE Ltd. (the Company). In some cases, such forward-looking statements can be identified by terms such as believe, expect, may, will, intend, project, plan, estimate or similar words. Forward-looking statements are subject to a number of risks and uncertainties that could cause the actual results or performance of the Company to differ materially from those described herein, including but not limited to the impact of the global economic environment on the Company's customer base (particularly financial services firms) potentially impacting our business and financial condition; competition; changes in technology and market requirements; decline in demand for the Company's products; inability to timely develop and introduce new technologies, products and applications; difficulties or delays in absorbing and integrating acquired operations, products, technologies and personnel; loss of market share; an inability to maintain certain marketing and distribution arrangements; and the effect of newly enacted or modified laws, regulation or standards on the Company and our products. For a more detailed description of the risk factors and uncertainties affecting the company, refer to the Company's reports filed from time to time with the Securities and Exchange Commission, including the Company's Annual Report on Form 20-F. The forward-looking statements contained in this press release are made as of the date of this press release, and the Company undertakes no obligation to update or revise them, except as required by law.
