ITEM 1.02. Termination of a Material Definitive Agreement.

As previously reported, EirGen Pharma Limited, a subsidiary of OPKO Health, Inc., a Delaware corporation (including its subsidiaries, the “Company”), entered into a development and license agreement, dated October 12, 2017 (the “Development Agreement”), with Japan Tobacco Inc. (“JT”). Pursuant to the Development Agreement the Company granted JT the exclusive rights for the development and commercialization of *Rayaldee* in Japan. A description of the material terms of the Development Agreement is contained under the heading “*Pharmaceutical Products—Renal Products-Rayaldee*” contained in Part I Item 1 of the Company’s Annual Report on Form 10-K for the year ended December 31, 2020 filed with the Securities and Exchange Commission on February 18, 2021, which description is incorporated by reference in this Item 1.02 of this Current Report on Form 8-K.

On May 17, 2021, JT delivered to the Company a notice of termination of the Development Agreement pursuant to Section 16.1(a) thereof, which permits termination by JT for any reason, indicating its decision to discontinue development of the product for the Japanese market based on a comprehensive review of its development pipeline. The termination of the Development Agreement will become effective on November 15, 2021.

ITEM 3.02. Unregistered Sales of Equity Securities.

As previously reported, on May 6, 2021, the Company entered into exchange agreements (the “Exchange Agreements”) with certain noteholders (the “Noteholders”) of the Company’s 4.50% Convertible Senior Notes due 2025, pursuant to which the Noteholders agreed to exchange (the “Exchange”) \$55.42 million in aggregate principal amount of such notes (the “Exchanged Notes”) for shares of the Company’s common stock, par value \$0.01 per share (“Common Stock”). On May 17, 2021, the Company consummated the Exchange and issued an aggregate of 19,051,270 shares of Common Stock to the Noteholders, together with an aggregate of \$616,547.50 in accrued and unpaid interest on the Exchanged Notes.

As previously reported, the number of shares of Common Stock issued by the Company to the Noteholders upon consummation of the Exchange was determined based upon a volume-weighted-average-price per share of Common Stock, subject to a floor of \$3.50 per share, during a four-trading-day averaging period, commencing on the trading day immediately following the date of each Exchange Agreement. The offer and sale of such shares was made pursuant to Section 3(a)(9) of the Securities Act of 1933, as amended, as the Exchange was effected between the Company and existing security holders, and no commission or other remuneration has been paid or given directly or indirectly for soliciting the Exchange.
