

PCB All-in-One Solutions

Q2 2025

Company Presentation

August 2025

Forward looking statement

Disclaimer

The information contained herein is a summary only, and does not exhaust all the information about the Company or its operations, nor does it replace a review of the Company's Periodical or Annual Reports, or any other information which is filed and furnished with the Israel Securities Authority.

Material information regarding the Company which is included in this slide presentation has been published to the public in the past as part of the Company's reporting. That said, the information or data presented may be presented in a different manner and/or segmentation from those previously furnished in the Company's Reports.

This presentation does not constitute or form part of any invitation or offer to invest or purchase the Company's securities, and in particular does not constitute an "offer to the public" or "sale to the public" of any kind. This presentation is intended solely for the provision of information included in it, and does not constitute a recommendation, or an opinion, or a substitute for the judgment of an investor for any kind of decision. Furthermore, it does not pretend to include all the information that may be relevant for the purpose of making any decision regarding the investment in the Company's securities or in general.

This presentation may include forward-looking information as defined in the Securities Law, 1968, including forecasts, goals, business strategy, evaluations and estimates, regarding both the Company's activities and the markets in which it operates, as well as any other information, in any form in which it is presented, that relates to future events or matters, the realization of which is uncertain and is not under the Company's control.

Any forward-looking information is based on current estimates and assumptions, among others, by the Company's management, which, although Company believes are reasonable, are inherently uncertain and are partially based on subjective estimates. The realization or non-realization of the forward-looking information will be affected and depended on a variety of factors including the risk factors which are inherent to the Company's activity, third party decisions, including regulatory authorities and engagements with third parties, as well as by developments in the economic environment and the external factors which impact the Company's activity, which cannot be assessed in advance and are out of the Company's control. Actual results and achievements of the Company in the future may be materially different from those presented in the forward-looking information presented in this presentation.

The Company does not undertake to update or change such a forecast or estimate in order to reflect events and/or reasons that will apply after the date of this presentation and does not undertake to update this presentation.

PCB TECHNOLOGIES at a Glance

Providing All-in-One, Cutting-Edge Hardware Electronics Technology

Legacy:

Since 1981
HQ is in Israel
788 employees

Innovation:

Strong R&D and Engineering Team
New Products - 25% of Total Revenue
+100 customers programs

Diversified Customer Base: (2024)

50% Defense and Aerospace
23% Industrial Instruments
27% Medical

Market Opportunity Growth CAGR% 2025-2030:

Defense and Aerospace 6.1% - 8.5%
Industrial Instruments 5.8% - 6.1%
Medical 5.6% - 6.3%

Performance

(Q2-23 > Q2-25):
TTM Revenue– 169 M\$
CAGR Sales TTM : 12.3%
CAGR GP TTM : 61.5%
CAGR EBITDA TTM : 120%

Value Proposition:

One Site, All-in-One Solution:
Bridging PCB Fabrication,
IC Packaging and Final
Product Integration

Company History

Corporate Structure

High-End Technologies

PCB Technologies Ltd. solutions enabling the most advanced electronics applications & technologies

PCBs & Substrates (Circuits Division)

- Printed circuit boards designed to support the most complex, high-density and powerful systems.
- Substrate design & manufacturing enabling high-performance solutions for analog, digital and high power.

IC Packaging (iNPACK Division)

- Complete design & manufacturing solution for the semiconductor industry.

PCBA & Final Product (Assembly Division)

- Comprehensive solutions from sub-assemblies to the final product, delivering precision and reliability for every electronics application.

... to enable High-End Applications

Defense

Providing Solutions for Leading Defense & Aerospace Programs

Optical Seeker - Navigation system

Eitan APC -
Radar System

Iron DOME -
Missile Program

Arrow 3 -
Antennas

OVER 100 PROGRAMS:

Providing PCB Solutions:

- High Frequency
- High Reliability
- High Power

Performance, durability & long life,
even in harsh conditions, serving:

- Top Tactical OEMs
- Military Branches & Intl. Ministries of Defense
- Commercial Space Applications & more

F35 -
Communication System

Active Protection -
Radar System

Aircraft Program
Landing & Comm. System

Impacting Medical Device Technology That Can Change Lives

END-TO-END FULL ASSEMBLY SOLUTION:

Utilizing our All-in-One
Methodology for
complete, complex
Medical Devices -
starting from PCB right
through to final product
assembly.

PCB Technologies
is ISO 13485 certified.

**Cardiac Navigation -
Complete System**

PCBA for MRI system

**Respiratory Monitoring -
Complete System**

Creating Precision Industrial Instruments for Complex Challenges

ALWAYS UP ON TECH:

Offering innovative solutions that provide both products and entire systems for a wide range of critical industrial sectors, including:
Semiconductor
Aggrotech, National Utility
Grids and the latest
Space-age Satellite
Communications Systems.

PCBA for 5G Satellites

Aggrotech Drones - Complete System

Water Meter Equipment - Complete System

Our Path Forward -Continued Growth

- A **strong backlog** ensures continued revenue growth across all divisions.
- We are **involved in major programs** within the Defense & Aerospace, Medical, and Industrial Instruments sectors, serving key customers.
- The current **business climate**, influenced by geopolitical tensions, **drives demand** for advanced hardware electronics solutions in the Western market.
- Our **product mix emphasizes advanced technologies and miniaturization**, contributing to profit improvement.
- We are **expanding our capacity** through capital expenditures to address production bottlenecks and enhance operational efficiency.

Thank You
