#### NOTE 1:-GENERAL

- a. Pluristem Therapeutics Inc., a Nevada corporation, was incorporated on May 11, 2001. Pluristem Therapeutics Inc. has a wholly owned subsidiary, Pluristem Ltd. (the "Subsidiary"), which is incorporated under the laws of the State of Israel. Pluristem Therapeutics Inc. and the Subsidiary are referred to as "Pluristem" or the "Company".
- b. The Company is a bio-therapeutics company developing standardized cell therapy products from human placenta for the treatment of multiple disorders. The Company has sustained operating losses and expects such losses to continue in the foreseeable future. The Company's accumulated losses aggregated to \$107,638 through March 31, 2014. The Company plans to continue to finance its operations with sales of equity securities, entering into licensing technology agreements such as the United Therapeutics Corporation ("United Therapeutics") and CHA Bio&Diostech ("CHA") agreements, and from grants to support its R&D activity. In the longer term, the Company plans to finance its operations from revenues generated by sales of products.

#### c. License Agreements:

On June 19, 2011, the Company entered into an exclusive license agreement (the "United Agreement") with United for the use of the Company's PLX cells to develop and commercialize a cel based product for the treatment of Pulmonary Hypertension ("PAH"). The United Agreement provides that United will receive exclusive worldwide license rights for the development ar commercialization of the Company's PLX cell-based product to treat PAH. The United Agreement further provides for the following consideration payable to the Company: (i) an upfro payment of \$7,000 paid in August 2011, which includes a \$5,000 non-refundable upfront payment and a \$2,000 advance payment on the development; (ii) up to \$37,500 upon reaching certa regulatory milestones with respect to the development of a product to treat PAH; (iii) reimbursement of up to \$10,000 of certain of the Company's expenses if the Company establishes a GM manufacturing facility in North America; (iv) reimbursement of certain costs in connection with the development of the product; and (v) following commercialization of the product, royalties at mid-single digit percent and the purchase of commercial supplies of the developed product from the Company at a specified margin over the Company's cost.

The United Agreement became effective on August 2, 2011, and will continue until the later of a few events, including termination of all patents relating to the collaboration, upon certain government action or if the parties do not develop any product under the United Agreement. United may unilaterally terminate the United Agreement at any time and without cause. In such event, United shall pay the Company certain costs and expenses of winding down any non-cancellable commitments made by the Company prior to the date of termination and cease all development activities in connection with the United Agreement.

On June 26, 2013, the Subsidiary entered into an exclusive license and commercialization agreement (the "CHA Agreement") with CHA Bio&Diostech ("CHA"), for conducting clinical trials and commercialization of Pluristem's PLX-PAD product in South Korea in connection with two indications: the treatment of Critical Limb Ischemia, and Intermediate Claudication (the "Indications"). Under the terms of the CHA Agreement, CHA will receive exclusive rights in South Korea for conducting clinical trials with respect to the Indications, at the sole expense of CHA.

The first clinical study to be performed as part of the CHA Agreement will be a Phase II trial in Intermittent Claudication. This study was approved in November 2013 by South Korea's Ministry of Food and Drug Safety.

Upon the first regulatory approval for a PLX product in South Korea, Pluristem and CHA will establish a joint venture to be co-owned by the parties. The purpose of the joint venture will be to commercialize PLX cell products in South Korea. Additionally, Pluristem will be able to use the data generated by CHA to pursue the development of PLX product candidates outside of South Korea.

In December 2013, as part of the CHA Agreement, Pluristem and CHA executed the mutual investment pursuant to which Pluristem issued 2,500,000 shares of its common stock in consideration for 1,011,504 shares of CHA, which reflects total consideration to each of Pluristem and CHA of approximately \$10,414.

#### U.S. Dollars in thousands (except share and per share amounts)

#### NOTE 1:-GENERAL (CONT.)

Each party has agreed to hold the other party's shares for at least one year before selling any of such shares. The parties also agreed to give an irrevocable proxy to the other party's manageme with respect to the voting power of the shares issued.

The investment in CHA shares are presented as "Marketable securities" and classified as available-for-sale (Note 3).

#### NOTE 2:- BASIS OF PRESENTATION AND SIGNIFICANT ACCOUNTING POLICIES

#### a. Unaudited Interim Financial Information

The accompanying unaudited interim condensed consolidated financial statements have been prepared in accordance with U.S. generally accepted accounting principles ("GAAP") for interim financial information and with the instructions to Form 10-Q and Article 10 of U.S. Securities and Exchange Commission Regulation S-X. Accordingly, they do not include all the information and footnotes required by GAAP for complete financial statements. In the opinion of management, all adjustments considered necessary for a fair presentation have been included (consisting only of normal recurring adjustments except as otherwise discussed).

For further information, reference is made to the consolidated financial statements and footnotes thereto included in the Company's Annual Report on Form 10-K for the year ended June 30, 2013.

Operating results for the three and nine months periods ended March 31, 2014, are not necessarily indicative of the results that may be expected for the year ending June 30, 2014.

#### b. Significant Accounting Policies

The significant accounting policies followed in the preparation of these unaudited interim condensed consolidated financial statements are identical to those applied in the preparation of the latest annual financial statements.

#### c. Use of estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

#### d. Fair value of financial instruments

The carrying amounts of the Company's financial instruments, including cash and cash equivalents, available-for-sale marketable securities, short-term deposits, trade payable and other accounts payable and accrued liabilities, approximate fair value because of their generally short term maturities.

The Company accounts for certain assets and liabilities at fair value under ASC 820, "Fair Value Measurements and Disclosures". Fair value is an exit price, representing the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants.

As such, fair value is a market-based measurement that should be determined based on assumptions that market participants would use in pricing an asset or a liability.

U.S. Dollars in thousands (except share and per share amounts)

#### NOTE 2:- BASIS OF PRESENTATION AND SIGNIFICANT ACCOUNTING POLICIES (CONT.)

As a basis for considering such assumptions, ASC 820 establishes a three-tier value hierarchy, which prioritizes the inputs used in the valuation methodologies in measuring fair value:

Level 1 - Observable inputs that reflect quoted prices (unadjusted) for identical assets or liabilities in active markets;

Level 2 - Includes other inputs that are directly or indirectly observable in the marketplace, other than quoted prices included in Level 1, such as quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in markets with insufficient volume or infrequent transactions, or other inputs that are observable (model-derived valuations in which significant inputs are observable), or can be derived principally from or corroborated by observable market data; and

Level 3 - Unobservable inputs, which are supported by little or no market activity.

The fair value hierarchy also requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The Company categorized each of its fair value measurements in one of these three levels of hierarchy.

Based on the fair value hierarchy, the Company classifies its marketable securities within Level 1 or Level 2. This is because the Company values its marketable securities using quoted market prices or alternative pricing sources and models utilizing market observable inputs. The Company classifies its foreign currency derivative instruments primarily within Level 2 as the valuation inputs are based on quoted prices and market observable data of similar instruments.

#### e. Derivative financial instruments

The Company uses forward contracts and options strategies ("derivative instruments") primarily to manage exposure to foreign currency. The Company accounts for derivatives and hedging based on ASC 815, "Derivatives and Hedging". ASC 815 requires the Company to recognize all derivative instruments as either assets or liabilities on the balance sheet at fair value. The accounting for changes in the fair value (i.e., gains or losses) of derivative instruments depends on whether it has been designated and qualifies as part of a hedging relationship and further, on the type of hedging relationship. For those derivative instruments that are designated and qualify as hedging instruments, the Company must designate the hedging instrument, based upon the exposure being hedged, as a fair value hedge, cash flow hedge, or a hedge of a net investment in a foreign operation. If the derivative instruments meet the definition of a hedge and are so designated, depending on the nature of the hedge, changes in the fair value of such derivatives will either be offset against the change in fair value of the hedged assets, liabilities, or firm commitments through earnings, or recognized in other comprehensive income until the hedged item is recognized in the statement of operations. The ineffective portion of a derivative's change in fair value is recognized in the statement of operations.

U.S. Dollars in thousands (except share and per share amounts)

#### NOTE 2:- BASIS OF PRESENTATION AND SIGNIFICANT ACCOUNTING POLICIES (CONT.)

Cash Flow Hedges. The Company entered into forward contracts to hedge against the risk of overall changes in future cash flow from payments of payroll and related expenses denominated in Israeli Shekels. The gain or loss on the effective portion of a cash flow hedge is initially reported as a component of accumulated other comprehensive income and subsequently reclassified into operating expenses in the same period or periods in which the payroll and related expenses are recognized, or reclassified into "financial income, net" if the hedged transaction becomes probable of not occurring. Any gain or loss after a hedge is no longer designated, because it is no longer probable of occurring or it is related to an ineffective portion of a cash flow hedge is recognized in the statement of operations immediately. As of March 31, 2014, the Company had forward contracts in place to hedge future payroll and related expenses in Israeli Shekels of approximately \$3,120, and the net unrealized loss on the effective portion of these cash flow hedges was \$6. The forward contracts on the Company's future Israeli Shekels payroll and related expenses will settle by September 2014. On June 30, 2013, the Company did not have contracts designated and qualifies as cash flow hedge.

Fair Value Hedges. The Company entered into forward contracts designated as fair value hedges to hedge foreign currency risks for its investment denominated in currencies other than the U.S. dollar. Gains and losses on these contracts are recognized in "financial income, net", along with the offsetting losses and gains of the related hedged items. The Company excludes changes in the time value for forward contracts from the assessment of hedge effectiveness.

In connection with the investment in CHA shares (see Note 1c), an available-for-sale marketable security denominated in Korean Won, the Company entered into a forward contract to hedge against the foreign currency risk between the Korean Won and the U.S. dollar. The notional principal of this contract is \$11,000 as of March 31, 2014.

The changes in fair value of the available-for-sale CHA shares attributable to the foreign currency risk being hedged are reflected in the statement of operations in "financial income, net" (not in other comprehensive income). Other changes in fair value of the available-for-sale CHA shares continue to follow ASC 320-"Investments—Debt and Equity Securities", accounting and are reflected in other comprehensive income.

Other Derivatives. Other derivatives that are non-designated consist primarily of options strategies to minimize the risk associated with the foreign exchange effects of monetary assets and liabilities denominated in Israeli Shekels. The net gains (losses) recognized in "financial income, net" during the three and nine month periods ended March 31, 2014 and 2013, were (\$29), (\$86), (\$25) and \$317, respectively.

U.S. Dollars in thousands (except share and per share amounts)

#### NOTE 3:- MARKETABLE SECURITIES

As of March 31, 2014, all of the Company's marketable securities were classified as available-for-sale.

	\$	27,468	\$	2,923	\$	(42)	\$	30,349	\$	13,182	\$	570	\$	(311)	\$	13,441

The following table presents gross unrealized losses and fair values for those investments that were in an unrealized loss position as of March 31, 2014 and June 30, 2013, and the length of time that those investments have been in a continuous loss position:

	 Less than	12 months					
		Gross				Gı	ross
	Fair Value	unrealized	loss	Fa	ir Value	unrealized loss	
As of March 31, 2014 (Unaudited)	\$ 1,619	\$	(36)	\$	130	\$	(6)
As of June 30, 2013	\$ 5.122	\$	(302)	\$	32	\$	(9)

The Company typically invests in highly-rated securities. When evaluating the investments for other-than-temporary impairment, the Company reviews factors such as the length of time and extent to which fair value has been below cost basis, the financial condition of the issuer and any changes thereto, and the Company's intent to sell, or whether it is more likely than not it will be required to sell, the investment before recovery of the investment's amortized cost basis.

Based on the above factors, the Company concluded that unrealized losses on all available-for-sale securities were not other-than-temporary and no credit loss was present for any of its investments. As such, the Company did not recognize any impairment charges on outstanding securities during the three and nine-month periods ended March 31, 2014.

#### NOTE 5: - COMMITMENTS AND CONTINGENCIES

Commitments and contingencies that changed during the nine months ended March 31, 2014, include the following:

Increase in the amount of \$3,292 of cash pledged by the Company to secure its hedging transactions, credit line and bank guarantees.

The Company, through its Israeli subsidiary, participated in programs sponsored by the Israeli Government for the support of research and development activities. Through March 31, 2014, the Company had obtained grants from the Office of the Chief Scientist ("OCS") aggregating to approximately \$14,156 of its research and development projects. The Company is obligated to pay royalties to the OCS, amounting to 3%-4% of the sales of the products and other related revenues generated from such projects, up to 100% of the grants received, linked to the U.S. dollars and for grants received after January 1, 1999, also bearing interest at the rate of LIBOR. The obligation to pay these royalties is contingent on actual revenues and in the absence of such revenues, no payment is required.

Through March 31, 2014, the Company has paid or accrued royalties to the OCS in the amount of \$50. As of March 31, 2014, the aggregate contingent liability to the OCS amounted to \$14,106.

U.S. Dollars in thousands (except share and per share amounts)

#### NOTE 6: - STOCKHOLDERS' EQUITY

- a. From July 2013 through March 2014, a total of 2,244,574 warrants were exercised via "cashless" exercise, resulting in the issuance of 1,350,907 shares of common stock to investors of the Company. In addition, 1,359,204 warrants were exercised for cash and resulted in the issuance of 1,359,204 shares of common stock to investors of the Company. The aggregate cash consideration received was \$1,859. In August 2013, a total of 15,000 warrants were exercised via a "cashless" exercise, resulting in the issuance of 5,905 shares of common stock to a consultant of the Company. Additionally, 16,500 options were exercised by employees and consultants, resulting in an issuance of 16,500 shares of common stock.
- b. Following a shelf registration on Form S-3 filed and declared effective in October 2011, the Company entered in December 2012 into an At Market Issuance Sales Agreement ("ATM Agreement") with an underwriter, which provides that, upon the terms and subject to the conditions and limitations set forth in the ATM Agreement, the Company may elect, from time to time, to issue and sell shares of common stock having an aggregate offering price of up to \$95,000 through the underwriter as a sales agent. The Company is not obligated to make any sales of common stock under the ATM Agreement.

  During the three and nine months period ended March 31, 2014, the Company issued 2,433,786 shares of common stock and raised approximately \$10,149, net of issuance expenses of
  - During the three and nine months period ended March 31, 2014, the Company issued 2,433,786 shares of common stock and raised approximately \$ 10,149, net of issuance expenses of \$184, under the ATM Agreement.

#### c. Options, warrants and restricted stock units to employees, directors and consultants:

1. Options to employees and directors:

The Company has approved two incentive option plans from 2003 and from 2005 (collectively, the "Plans").

The Company accounted for its options to employees and directors in accordance with ASC 718, "Compensation — Stock Compensation". A summary of the Company's share option activity for options granted to employees and directors under the Plans is as follows:

	Nine months ended March 31, 2014 (Unaudited)								
				Weighted					
				Average					
		Weig	hted	Remaining Contractual	Aggregate				
	<b>N</b> 1	Avei		Terms (in	Intrinsic Value				
	Number	Exercis	e Price	years)	Price				
Options outstanding at beginning of period	1,958,156	\$	4.01						
Options exercised	(15,000)	\$	0.83						
Options forfeited	(81,057)	\$	11.59						
Options outstanding at end of the period	1,862,099	\$	3.73	3.37	\$ 1,461				
Options exercisable at the end of the period	1,862,099	\$	3.73	3.37	\$ 1,461				
Options vested	1,862,099	\$	3.73	3.37	\$ 1,461				

Intrinsic value of exercisable options (the difference between the Company's closing stock price on the last trading day in the period and the exercise price, multiplied by the number of in-themoney options) represents the amount that would have been received by the employees and directors option holders had all option holders exercised their options on March 31, 2014. This amount changes based on the fair market value of the Company's common stock.

U.S. Dollars in thousands (except share and per share amounts)

#### NOTE 7:-SUBSEQUENT EVENTS

In May 2014, the Subsidiary, received a letter of approval from the OCS. The grant resulting in this approval will be approximately NIS 14,601 (approximately \$4,187) and once received, it will be used to cover research and development expenses for the period January 1, 2014 to December 31, 2014. This grant is subject to the same repayment restrictions of royalties as the prior OCS grants (see note 5) and a part of it is subject to either an assessment or medical opinion regarding conducting a clinical trial involving pregnant women.

#### Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations.

#### Forward - Looking Statements

This quarterly report on Form 10-Q contains certain forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995 and other Federal securities laws, and is subject to the safe-harbor created by such Act and laws. Forward-looking statements may include statements regarding our goals, beliefs, strategies, objectives, plans, including product and technology developments, future financial conditions, results or projections or current expectations. In some cases, you can identify forward-looking statements by terminology such as "may," "will," "should," "expect," "intend," "plan," "anticipate," "believe," "estimate," "predict," "potential" or "continue," the negative of such terms, or other variations thereon or comparable terminology. These statements are merely predictions and therefore inherently subject to known and unknown risks, uncertainties, assumptions and other factors that may cause actual results, performance levels of activity, or our achievements, or industry results to be materially different from those contemplated by the forward-looking statements. Such forward-looking statements appear in this Item 2 – "Management's Discussion and Analysis of Financial Condition and Results of Operations," and may appear elsewhere in this quarterly report on Form 10-Q and include, but are not limited to, statements regarding the following:

- the expected development and potential benefits from our products in treating various medical conditions;
- the exclusive license agreements we entered into with United Therapeutics Corporation (United) and CHA Bio&Diostech (CHA) (United Agreement and CHA Agreement, respectively) and clinical trials to be conducted according to such agreements;
- the prospects of entering into additional license agreements, or other forms of cooperation with other companies and medical institutions;
- · achieving regulatory approvals;
- Receipt of future funding from the Office of the Chief Scientist of Israel (OCS);
- developing capabilities for new clinical indications of placenta expanded cells (PLX);
- the potential market demand for our products;
- the implications of the clinical hold notification provided by the U.S. Food and Drug Administration (FDA) in June 2013 (Clinical Hold), which has been lifted since then;
- · our expectations regarding our short- and long-term capital requirements, including possible utilization of our ATM Agreement described below;
- · our outlook for the coming months and future periods, including but not limited to our expectations regarding future revenue and expenses; and
- information with respect to any other plans and strategies for our business.

Our business and operations are subject to substantial risks, which increase the uncertainty inherent in the forward-looking statements contained in this report. In addition, historic results of scientific research, clinical and preclinical trials do not guarantee that the conclusions of future research or trials would not suggest different conclusions. Also, historic results referred to in this periodic report would be interpreted differently in light of additional research, clinical and preclinical trials results. Except as required by law, we undertake no obligation to release publicly the result of any revision to these forward-looking statements that may be made to reflect events or circumstances after the date hereof or to reflect the occurrence of unanticipated events. Further information on potential factors that could affect our business is described under the heading "Risk Factors" in Part I, Item 1A of our Annual Report on Form 10-K for the fiscal year ended June 30, 2013. Readers are also urged to carefully review and consider the various disclosures we have made in that report.

As used in this quarterly report, the terms "we", "us", "our", the "Company" and "Pluristem" mean Pluristem Therapeutics Inc. and our wholly owned subsidiary, Pluristem Ltd., unless otherwise indicated or as otherwise required by the context.

#### Overview

We are a bio-therapeutics company developing standardized cell therapy products for the treatment of a variety of local and systemic diseases. Our patented PLX (PLacental eXpanded) cells function as a drug delivery platform that releases a number of therapeutic proteins in response to various local and systemic inflammatory and ischemic signals generated by the patient. PLX cells are grown using our proprietary 3D micro-environment technology that produces an "off-the-shelf" product that requires no tissue matching prior to administration.

We were incorporated as a Nevada corporation in 2001. We have a wholly owned research and development subsidiary in Israel called Pluristem Ltd. We operate in one segment, namely, the research, development and commercialization of cell therapeutics and related technologies.

Our strategy is to develop and produce cell therapy products for the treatment of multiple disorders using several methods of administration. We plan to execute this strategy independently, using our own personnel, and through relationships with research and clinical institutions or in collaboration with other companies, such as United and CHA. We have built our own Good Manufacturing Practices facility and we are planning to have in-house production capacity to grow clinical grade PLX cells in commercial quantities and to control all of our proprietary manufacturing processes.

#### RESULTS OF OPERATIONS - NINE AND THREE MONTHS ENDED MARCH 31, 2014 COMPARED TO NINE AND THREE MONTHS ENDED MARCH 31, 2013.

#### Revenues

Revenues for the nine months ended March 31, 2014 were \$285,000 as compared to revenues of \$584,000 for the nine months ended March 31, 2013. All such revenues are derived from the United Agreement.

Revenues for the three months ended March 31, 2014 were \$95,000 as compared to revenues \$194,000 for three months ended March 31, 2013. All such revenues are derived from the United Agreement.

This reduction is a result of re-evaluation we did for the development period under the United Agreement. In June 2013, we received notification from the FDA that our United States phase II Intermittent Claudication study had been placed on Clinical Hold due to a serious allergic reaction in a case which required hospitalization. In September 2013, the FDA lifted the Clinical Hold. In June 2013, following the Clinical Hold, we extended the development period for which we received funds from United from 6.5 years to 11.5 years. The license fee will be recognized on a straight line basis as revenue over the estimated development period.

#### Research and Development net

Research and development net costs (costs less participation and grants by the OCS and other parties) for the nine months ended March 31, 2014 increased by 33% from \$11,313,000 for the nine months ended March 31, 2013 to \$15,078,000. This increase is attributed to the material increase in our in-house research and development activity, increase in our salaries due to, among other things, an increase of 43 employees as compared to the average number of employees in the nine months ended March 2013 and an increase in our depreciation expenses, offset by an increase in OCS participation. This increase in OCS participation is attributable to the fact that due to a delay in the approval of the OCS grant for 2013, we recognized \$3,273,000 through the nine months ended March 31, 2014 compared to \$1,525,000 through the nine months ended March 31, 2013.

Research and development net costs, for the three months ended March 31, 2014 increased by 38% from \$4,962,000 for the three months ended March 31, 2013 to \$6,848,000. This increase is attributed to a material increase in our in-house research and development activity, increase in our salaries due to, among other things, an increase of 34 employees as compared to the average number of employees in the three months ended March 2013, an increase in stock-based compensation expenses related to our employees and consultants and an increase in our depreciation expenses.

#### General and Administrative

General and administrative expenses for the nine months ended March 31, 2014 increased by 49% from \$4,260,000 for the nine months ended March 31, 2013 to \$6,335,000 mainly due to an increase in stock-based compensation expenses related to our employees, directors and officers, an increase in salaries due to, among other things, an increase of 5 employees as compared to the average number of employees in the nine months ended March 2013, and an increase in our depreciation expenses, offset by a decrease in stock-based compensation expenses to investor relations consultants.

General and administrative expenses for the three months ended March 31, 2014 increased by 118% from \$1,159,000 for the three months ended March 31, 2013 to \$2,531,000 mainly due to an increase in stock-based compensation expenses related to our employees, directors and officers and consultants, and an increase in salaries due to, among other things, an increase of 4 employees as compared to the average number of employees in the three months ended March 2013.

#### Financial Income, net

Financial income decreased by 52% from \$842,000 for the nine months ended March 31, 2013 to \$401,000 for the nine months ended March 31, 2014 mainly due to changes in the fair value of our derivatives not designated as cash flow hedge, and a decrease in our interest income, offset by an increase in our income from marketable securities.

Financial income decreased by 96% from \$253,000 for the three months ended March 31, 2013 to \$11,000 for the three months ended March 31, 2014. This decrease is attributed mainly to a decrease in exchange rate income and interest income, and to changes in the fair value of our derivatives, offset by an increase in our income from marketable securities.

From November, 2013 to March 2014, we entered into forward contracts to hedge against the risk of overall changes in future cash flow from payments of payroll and related expenses denominated in Israeli Shekels. Changes in the fair value of the forward contracts, which were designated to hedge payroll payments, in the amount of \$6,000 were recognized as other comprehensive loss.

In connection with the investment in CHA shares, an available-for-sale marketable security, denominated in Korean Won ("KRW"), in February 2014, we entered into a forward contract to hedge against the foreign currency risk between the KRW and the U.S. dollar. The notional principal of this contract is \$11 million as of March 31, 2014. The changes in fair value of the available-for-sale CHA shares attributable to the foreign currency risk being hedged are reflected in the statement of operations in "financial income, net" (not in other comprehensive income). Other changes in fair value of the available-for-sale CHA shares continue to follow ASC 320 -"Investments—Debt and Equity Securities", accounting and are reflected in other comprehensive income.

The net expense that resulted from of the changes in the fair value of the hedge instrument, offset by an exchange rate income related to our investment in CHA shares, is \$92,000 for the three months ended March 31, 2014.

#### Net Loss

Net loss for the nine and three months ended March 31, 2014 was \$20,736,000 and \$9,276,000, respectively, as compared to net loss of \$14,165,000 and \$5,680,000 for the nine and three months ended March 31, 2013, respectively. Net loss per share for the nine and three months ended March 31, 2014 was \$0.33 and \$0.14, respectively, as compared to \$0.26 and \$0.10 for the nine and three months ended March 31, 2013.

For the nine months ended March 31, 2014 and March 31, 2013, we had weighted average shares of common stock outstanding of 62,098,498 and 54,507,538, respectively, which were used in the computations of net loss per share for the nine months. The increase in weighted average common shares outstanding reflects mainly shares issued to CHA in December 2013, shares issued under an At Market Issuance Sales Agreement (ATM agreement) during February and March 2014, shares issued as a result of exercise of warrants and options and issuances of restricted stock units to employees and consultants.

#### Liquidity and Capital Resources

As of March 31, 2014, our total current assets were \$64,709,000 and total current liabilities were \$6,442,000. On March 31, 2014, we had a working capital surplus of \$58,267,000, stockholders' equity of \$65,958,000 and an accumulated deficit of \$107,638,000. We finance our operations and plan to continue doing so from our existing cash, issuances of our securities, licensing fees and other payments under licensing agreements, and funds from grants from the OCS.

Cash and cash equivalents as of March 31, 2014 amounted to \$3,638,000, compared to \$27,821,000 as of March 31, 2013. Cash balances changed in the nine months ended March 31, 2014 and March 31, 2013 for the reasons presented below.

Operating activities used cash of \$13,765,000 in the nine months ended March 31, 2014, compared to \$11,874,000 for the nine months ended March 31, 2013. Cash used in operating activities in the nine months ended March 31, 2014 and 2013, primarily consisted of payments of salaries to our employees, and payments of fees to our consultants, suppliers, subcontractors, professional services providers including costs of clinical studies, offset by an OCS grant.

Investing activities used cash of \$3,624,000 in the nine months ended March 31, 2014, compared to \$5,661,000 for the nine months ended March 31, 2013. The investing activities in the nine months ended March 31, 2014 consisted primarily of investing \$8,809,000 in marketable securities and the purchase of property and equipment for \$1,436,000, offset by withdrawal of \$1,945,000 of short-term deposits and proceeds of \$4,562,000 from the sale and redemption of marketable securities. The investing activities in the nine months ended March 31, 2013 consisted primarily of investing \$1,408,000 in short term deposits and \$2,537,000 in marketable securities and purchasing equipment and paying for the construction of our new facilities in the amount of \$3,247,000, offset by proceeds from sale and redemption of available for sale marketable securities in amount of \$1,030,000.

Financing activities generated cash of \$12,020,000 during the nine months ended March 31, 2014, compared to \$35,967,000 for the nine months ended March 31, 2013. The cash generated in the nine months ended March 31, 2014 from financing activities is primarily attributable to net proceeds of \$10,149,000 from issuing shares of our common stock under the ATM Agreement as described below, and from exercises of warrants by shareholders. The cash generated in the nine months ended March 31, 2013 from financing activities is primarily attributable to proceeds of \$34,106,000 from a public offering of our common stock that took place in September 2012.

We entered in December 2012 into the ATM Agreement with MLV & Co. LLC, which provides that, upon the terms and subject to the conditions and limitations set forth in the ATM Agreement, we may elect, from time to time, to issue and sell shares of common stock having an aggregate offering price of up to \$95 million through MLV & Co. LLC as a sales agent. We are not obligated to make any sales of common stock under the ATM Agreement.

During the three month period ended March 31, 2014, we issued 2,433,786 shares of common stock and raised approximately \$10,149,000, net of issuance expenses of \$184,000 under the ATM Agreement. As of March 31, 2014, \$84.6 million remained available for issuance under the ATM Agreement.

During the nine months period ended March 31, 2014, a total of 2,244,574 warrants were exercised via "cashless" exercise, resulting in the issuance of 1,350,907 shares of common stock to investors of the Company. In addition, 1,359,204 warrants were exercised for cash and resulted in the issuance of 1,359,204 shares of common stock to investors of the Company. The aggregate cash consideration received was approximately \$1,859,000. In August 2013, a total of 15,000 warrants were exercised via a "cashless" exercise, resulting in the issuance of 5,905 shares of common stock to a consultant of the Company. Additionally, 16,500 options were exercised by employees and consultants, resulting in an issuance of 16,500 shares of common stock.

During the nine months ended March 31, 2014, we received approximately \$3,341,000 from the OCS towards our research and development expenses. According to the OCS grant terms, we are required to pay royalties at a rate of 3% - 4% on sales of products and services derived from technology developed using this and other OCS grants until 100% of the dollar-linked grants amount plus interest are repaid. In the absence of such sales, no payment is required. During the nine months ended March 31, 2014 we paid \$14,291 in royalties to the OCS. In May 2014, we received a letter of approval from the OCS. The grant resulting in this approval will be approximately NIS 14,601,000 (approximately \$4,187,000) and once received, it will be used to cover our research and development expenses for the period January 1, 2014 to December 31, 2014. This grant is subject to the same repayment restrictions of royalties as the prior OCS grants and a part of it is also subject to either an assessment or medical opinion regarding conducting a clinical trial involving pregnant women.

As of today, the currency of our financial portfolio is mainly in U.S. dollars and we use forward and options contracts in order to hedge our exposures to currencies other than the U.S. dollar. For more information, please see Item 3. – "Quantitative and Qualitative Disclosures About Market Risk" below as well as Item 7A. - "Quantitative and Qualitative Disclosures About Market Risk" in our Annual Report of Form 10-K filed on September 11, 2013.

As provided for in the CHA Agreement, in December, 2014, we issued to CHA 2,500,000 shares of our common stock in consideration for the issuance to us 1,011,504 common shares of CHA, which reflected total consideration of approximately \$10,414,000 to each of us and CHA. Each of us and CHA agreed not to sell the other party's shares for at least one year. The parties also agreed to give an irrevocable proxy to the other party's management with respect to the shares issued.

Our investment in CHA shares is presented as "Marketable securities" on our balance sheet and classified as available-for-sale. As of March 31, 2014, the fair value of our investment in CHA shares amounted to approximately \$12,208,000 and other comprehensive income includes unrealized gains of \$1,530,000 related to the increase in the fair value of CHA shares. If we decide to sell our investment in CHA shares, we will reclassify the unrealized gains or losses in our statement of operations.

#### Outlook

We have accumulated a deficit of \$107,638,000 since our inception in May 2001. We do not expect to generate any revenues from sales of products in the next twelve months. Our products will likely not be ready for sale for at least three years, if at all. Our cash needs will increase in the foreseeable future. We expect to generate revenues, which in the short and medium terms will unlikely exceed our costs of operations, from the sale of licenses to use our technology or products, as we have in the United Agreement. Our management believes that we may need to raise additional funds before we have cash flow from operations that can materially decrease our dependence on our existing cash and other liquidity resources. We are continually looking for sources of funding, including non-diluting sources such as the OCS grants, as well as using the ATM Agreement to raise funds, other sales of our common stock or sales of the marketable securities we hold.

We believe that we have sufficient cash to fund our operations for at least the next 12 months.

#### Off Balance Sheet Arrangements

We have no off balance sheet arrangements.

#### Item 3. Quantitative and Qualitative Disclosures About Market Risk.

We are exposed to a variety of risks, including changes in interest rates, foreign currency exchange rates, changes in the value of our marketable securities and inflation. The items discussed below update, the respective parts of Item 7A. - "Quantitative and Qualitative Disclosures About Market Risk" in our Annual Report of Form 10-K filed on September 11, 2013.

As of March 31, 2014, we had \$3.6 million in cash and cash equivalents, \$29.8 million in short-term bank deposits and restricted short-term deposits, and \$30.3 million in marketable securities.

As a general matter, we adhere to an investment policy set by our investment committee which aims to preserve our financial assets, maintain adequate liquidity and maximize return while minimizing exposure to the Israeli Shekel. Such policy further provides that we should hold most of our current assets in bank deposits and the remainder of our current assets is to be invested in government bonds and a combination of corporate bonds and relatively low risk stocks. As of today, the currency of our financial portfolio is mainly in U.S. dollars and we use forward and options contracts in order to hedge our exposures to currencies other than the U.S. dollar. In addition, since November 2013 we have entered into forward contracts to hedge against the risk of overall changes in future cash flow from payments of payroll and related expenses denominated in Israeli Shekels. As of March 31, 2014, we had forward contracts in place to hedge future payroll and related expenses in Israeli Shekels in national amount of approximately \$3,120,000, and the net unrealized loss on the effective portion of these cash flow hedges was \$6,000. The forward contracts on our future Israeli Shekels payroll and related expenses will settle by September 2014.

As discussed above, we own 1,011,504 common shares of CHA, which are presented in our financial statements as marketable securities. The shares are listed on the KOSDAQ and the shares' price is denominated in KRW. We are exposed to changes in the market price of CHA shares, as well as to exchange rates fluctuations in the KRW currency compared to the U.S dollar.

As discussed under Item 2. "Management's Discussion and Analysis of Financial Condition and Results of Operations", in February 2014, we entered into a forward contract with a notional principal of \$11 million as of March 31, 2014, to hedge against the foreign currency risk between the KRW and the U.S. dollar.

#### Item 4. Controls and Procedures.

Evaluation of Disclosure Controls and Procedures - We maintain a system of disclosure controls and procedures that are designed for the purposes of ensuring that information required to be disclosed in our SEC reports is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms, and that such information is accumulated and communicated to our management, including our Chief Executive Officer, or CEO, and our Chief Financial Officer, or CFO, as appropriate to allow timely decisions regarding required disclosures.

As of the end of the period covered by this report, we carried out an evaluation, under the supervision and with the participation of our CEO and our CFO, of the effectiveness of our disclosure controls and procedures as defined in Rule 13a-15(e) of the Securities Exchange Act of 1934, as amended. Based on that evaluation, our CEO and CFO concluded that our disclosure controls and procedures are effective.

Changes in Internal Control Over Financial Reporting - There has been no change in our internal control over financial reporting during the third quarter of fiscal 2014 that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

#### PART II - OTHER INFORMATION

#### Item 2. Unregistered Sales of Equity Securities and Use of Proceeds.

In February 2014, we granted an aggregate of 40,800 restricted stock units to consultants for services rendered.

The above issuances were exempt under Section 4(a)(2) of the Securities Act of 1933, as amended.

#### Item 6. Exhibits.

- 31.1\* Rule 13a-14(a) Certification of Chief Executive Officer.
- 31.2\* Rule 13a-14(a) Certification of Chief Financial Officer.
- 32.1\*\* Certification of Chief Executive Officer pursuant to 18 U.S.C. Section 1350.
- 32.2\*\* Certification of Chief Financial Officer pursuant to 18 U.S.C. Section 1350.
- The following materials from our Quarterly Report on Form 10-Q for the quarter ended March 31, 2014 formatted in XBRL (eXtensible Business Reporting Language): (i) the Interim Condensed Consolidated Balance Sheets, (ii) the Interim Condensed Consolidated Statements of Operations, (iii) the Interim Condensed Consolidated Statements of Comprehensive Loss, (iv) the Interim Condensed Statements of Changes in Equity, (v) the Interim Condensed Consolidated Statements of Cash Flows, and (vi) the Notes to Interim Condensed Consolidated Financial Statements, tagged as blocks of text and in detail.

\*Filed herewith.

Boaz Gur-Lavie, Chief Financial Officer and Secretary
(Principal Financial Officer and Principal Accounting Officer)
Date: May 8, 2014

#### CERTIFICATION

- I, Zami Aberman, certify that:
- 1. I have reviewed this quarterly report on Form 10-Q of Pluristem Therapeutics Inc.;
- 2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
- 3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
- 4. The registrant's other certifying officer(s) and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13(a)-15(f) and 15d-15(f)) of the registrant and have:
- (a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
- (b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
- (c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
- (d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
- 5. The registrant's other certifying officer(s) and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
- (a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
- (b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
