**Total holding percentages:**

- Equity: 76.85%
- Voting Rights: 76.85%
- Equity (full dilution): 76.75%
- Voting Rights (full dilution): 76.75%

**B. Senior Officers in the Corporation (excluding CEO and directors, and any other employee holding five percent or more of the issued share capital or voting rights in the corporation):**

They do not hold any securities of the corporation.

**Explanations:**

1. It is also required to report the holding of other securities (that are not bonds), including other securities not listed for trading.
2. In the case where a report is required regarding holding in government bonds that are not convertible into shares, the holding status may be attached as a PDF file in the designated field at the end of section B, instead of entering the data in the form, all as per Staff Position No. 104-21: [Link](#)
3. If the interested party holds more than one type of security in the corporation, the holding percentage (including full dilution) must be listed considering all securities held by that party in a single line only.
4. This form must detail the holdings status of all interested parties, including those whose holdings have not changed.
5. In the case where the interested party is a held company with significant activities for the corporation, holdings should be broken down by shares acquired before and after the Companies Law, 1999 came into force.
6. If the interested party is a corporation, also specify the name(s) of the final controlling shareholder(s) of this entity. If the interested party has no controlling shareholder, details of its interested parties should be provided.
7. If a senior officer holds five percent or more of the issued share capital or voting rights, his holdings must be detailed in the 'Interested Parties' table above.
8. If the interested party or senior officer also holds securities in a held company whose activities are significant to the corporation, such holdings should be detailed in the 'Remarks' field of the holder's details.

---
