

Bankers Insurance Group Selects Sapiens to Power Digital Modernization and Accelerate Strategic Growth

The specialty commercial carrier will enhance its business by modernizing core systems with Sapiens, starting with builder's risk, business owner's policy, and then a series of new products.

Rochelle Park, NJ, August 20, 2025 – [Sapiens International Corporation](#), (NASDAQ and TSE: SPNS), a global leader in intelligent SaaS-based software solutions, announced today that [Bankers Insurance Group](#) (Bankers), a leading specialty commercial carrier, has selected [Sapiens CoreSuite for Property & Casualty](#) to support the next phase of its business transformation.

Bankers is embarking on an ambitious growth strategy, including expansion into new states and product lines. To support this vision, Bankers selected Sapiens CoreSuite for P&C to modernize its technology stack and help power its next chapter of growth and operational excellence – starting with builder's risk and business owner's policy (BOP), with additional product launches to follow. The partnership with Sapiens will provide a modern, scalable platform that delivers automation and improves efficiency.

"This transformation is about enabling our people and empowering our trading partners, not just upgrading systems," said Walt Sykes, President, Bankers Insurance Group. "We were looking for a flexible, modern platform to elevate the experience of those we serve and position ourselves for long-term, scalable growth. Sapiens' approach, proven expertise, and technology architecture made them the ideal partner to help bring our vision to life."

Sapiens CoreSuite for P&C will support Bankers' transition from a legacy system to a modern, end-to-end suite — allowing the company to scale efficiently, reduce manual processing, and improve service levels across the business. With advanced automation and analytics, the solution will accelerate time-to-market, enhance responsiveness to trading partners, and strengthen Bankers' ability to navigate a dynamic and competitive market.

"We are excited to partner with Bankers on their transformation journey," said Roni Al-Dor, President and CEO of Sapiens. "Our cloud-native, SaaS CoreSuite is designed to support growth initiatives of forward-thinking insurers like Bankers. It will deliver agility, ongoing innovation, and access to next-generation insurtech ecosystems, helping Bankers to remain future-ready."

[Sapiens CoreSuite for Property & Casualty](#) is a truly integrated suite to address all North American P&C insurer needs, including policy administration, billing, and claims. The solution empowers P&C insurers to quickly adjust to market and regulatory changes, evolving customer expectations, and the constant emergence of new competitors, by including a platform of automated decision, reinsurance, data and analytics, and digital applications for a completely modernized landscape.

ABOUT BANKERS INSURANCE GROUP

Bankers Insurance Group is a proud subsidiary of [Bankers Financial Corporation](#), located in St. Petersburg, Florida. Founded in 1976 as a small business, we have grown into a

prominent regional specialty commercial carrier focusing on the Southeastern United States. Our ability to respond to catastrophes with expertise and agility sets us apart.
