

MPS Completes Major IDITSuite Upgrade with Sapiens

Medical Protection Society has upgraded to a new version of IDITSuite for Property & Casualty, gaining future-proof architecture and extended lifecycle support

Rochelle Park, NJ, September 17, 2025 – [Sapiens International Corporation](#), (NASDAQ and TASE: SPNS), a global leader in intelligent SaaS-based software solutions, today announced that Medical Protection Society (MPS) – the world's leading protection organization for doctors, dentists, and healthcare professionals – has been upgraded to a new version of IDITSuite. The project advanced MPS' core suite by six versions, so the organization can benefit from future-proof architecture and extended lifecycle support.

The complex project was completed on time, within budget, and with high quality.

This strategic enhancement brings at least four key benefits for MPS:

- **Future-proof architecture** built on modern, scalable infrastructure that supports ongoing innovation and seamless integration with emerging technologies.
- **Extended lifecycle support** ensures stability and maintainability for years, reducing operational risk and total cost of ownership.
- **Enhanced functionality**, including new features and automation tools that improve efficiency, user experience, and responsiveness to customer needs.
- **Improved performance and security**: optimized system performance and reinforced security protocols to meet the highest industry standards.

"We are firmly focused on enhancing MPS' systems to provide a more seamless member experience. Our successful, [long-term relationship](#) with Sapiens and the delivery of this project has been central to this goal," said Chief Information Officer (CIO), Jonathan Vardon, MPS. "Working closely with teams across MPS, Sapiens has completed this project within a year, delivering an upgrade that will empower us to react faster to industry developments and provide a better user experience, while reducing our total cost of ownership."

"This strategic upgrade reflects our commitment to continuous improvement and to empowering our clients with robust, forward-looking solutions," said Roni Al-Dor, Sapiens President and CEO. "The success of this project is the result of outstanding collaboration between two partners that worked like a single team, assisted by the strong cooperation and leadership from MPS management."

[Sapiens IDITSuite for Property & Casualty](#) is an AI-powered, end-to-end insurance software solution that supports customer acquisition, billing, finance, claims, and renewals. The award-winning solution features a low-code product and pricing configuration engine that accelerates speed to market.
