Explanations

1. If the change affects more than one security, the impact of the change should be detailed in a separate line for each security.
2. Date of change – all changes of the same type, in the same security, executed on one day, shall be summed in one line. For this matter – changes executed via the exchange clearinghouse should be separated from changes handled directly in the company's books.
3. For a decrease, add the sign "-".
4. In all quantity fields, state the number of securities and not NIS par value.
