

GLOBETRONICS TECHNOLOGY BHD

199601037932 (410285-W)

Status of Memorandum of Understanding (MOU)

No.	Date of Announcement	Description of Announcement	Status/Remark
1.	6 September 2024	Memorandum of Understanding Between Globetronics Manufacturing Sdn. Bhd., a Wholly-Owned Subsidiary of the Company and MyDigital Corporation (MyDigital)	The Board wishes to announce the following: 1. IoT Infrastructure Deployment: Completed onsite installation and secure WiFi integration for DA machine (DA#39) vibration IoT sensors, enabling cloud-based monitoring of critical LM guide components. 2. System Validation: Executed a full-scale review of the Wiser Machine ecosystem, finalizing the dashboard and mobile interface requirements. 3. Operational Analytics: Initiated deep-data correlation between machine activity logs and sensor output to establish a diagnostic baseline for engineer level. 4. Vision AI Development: Commenced the data acquisition phase for collet monitoring, supplying high-resolution training sets to accelerate future automated inspection capabilities. 5. Strategic Governance & Funding: MyDigital will be coordinating a comprehensive milestone validation with us so that they can release the project funding, ensuring seamless transition into the next implementation stage.

2.	9 December 2024	Memorandum of Understanding Between Globetronics Manufacturing Sdn. Bhd., a Wholly-Owned Subsidiary of the Company and Invest-In-Penang Berhad	There has been no material development on the status since the last announcement made on 28 November 2025.
