

Inta Bina Secures RM227.08 Million Mixed Commercial Development Contract in Klang

SUBANG JAYA, 29 May 2026 – Inta Bina Group Berhad (“Inta Bina” or “the Group”), an established name in Malaysia’s construction sector, has secured a RM227.08 million contract for the proposed main building works and infrastructure works for a mixed commercial development in Klang, Selangor.

The contract was awarded by Ancubic PJ Sdn. Bhd. and covers the construction of a large-scale strata commercial development located along Jalan Remia and Jalan Botanika, Mukim Klang, Daerah Klang, Selangor. The project is scheduled to commence on 15 June 2026 and is expected to be completed within 36 months.

The development comprises two phases featuring serviced apartments, retail podiums, parking facilities, lifestyle amenities and associated infrastructure works. Upon completion, the project will deliver a total of 976 serviced apartment and Rumah Mampu Milik (RMM) units alongside commercial and community-oriented facilities. This latest award further strengthens Inta Bina’s position in the high-rise mixed development segment, particularly within the Klang Valley, where demand for integrated residential and commercial developments continues to remain resilient.

With this latest contract win, Inta Bina’s current unfilled order book is estimated at approximately RM1.7 billion, inclusive of the newly secured contract. The Group also continues to maintain a solid operating performance, having recorded revenue of RM750.6 million for FY 2025, underscoring the strength of its project pipeline and execution capabilities.

Paul Lim, Managing Director of Inta Bina Group Berhad commented: “This contract further strengthens our order book and reinforces our presence in the Klang Valley construction market. We are pleased to work with Ancubic Group, a new client for Inta Bina, contributing to the Group’s KPI achievement of securing at least one new client per year. The appointment of Inta Bina as the main contractor reflects continued demand for the Group’s construction expertise in integrated developments”

-- End --

About Inta Bina Group Berhad

Inta Bina Group Berhad (“Inta”) is a Grade 7 building contractor under the Construction Industry Development Board with more than 30 years of operating history. Inta has completed more than 155 building construction projects with a total contract value of over RM5 billion, mainly in the Klang Valley and Johor.
