- b. The Company has incurred continuing losses and depends on outside financing resources to continue its activities. The Company's only source of income at this stage originates from InterCure, a subsidiary in which control was acquired on July 25, 2012. Based on existing business plans, the Company's management estimates that its outstanding cash and cash equivalent balances, including short-term deposits, will allow the Company to finance its activities at least until the first quarter of 2016 (independently of InterCure, which is 54.72% held). However, the amount of cash which the Company will need in practice to finance its activities depends on numerous factors which include, but are not limited to, the timing, planning and execution of clinical trials of existing drugs and future projects which the Company might acquire or other business development activities such as acquiring new technologies and/or changes in circumstances which are liable to cause significant expenses to the Company in excess of management's current and known expectations as of the date of these financial statements and which will require the Company to reallocate funds against plans, also due to circumstances beyond its control. The Company's ability to continue operating and finalizing the development of the above mentioned drugs will require obtaining additional financial resources.

The Company expects to incur additional losses in 2014 arising from research and development activities and testing additional technologies and operating activities, which will be reflected in negative cash flows from operating activities. Accordingly, in order to perform the clinical trials aimed at developing a product until obtaining its marketing approval, the Company will be forced to raise additional funds in the future by issuing securities. Should the Company fail to raise additional capital in the future under standard terms, it will be required to minimize its activities or sell or grant a sublicense to third parties to use all or part of its technologies.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS AS OF SEPTEMBER 30, 2014 (UNAUDITED)

NOTE 1:- GENERAL (Cont.)

InterCure has noted in its consolidated financial statements for the year ended December 31, 2013, that there is substantial doubt regarding its ability to continue as a going concern. As of December 31, 2013, the Company has impaired its assets accordingly (see Note 14f to the 2013 annual financial statements with regard to the impairment). These financial statements of the Company include no further adjustments of the value of assets and liabilities, if any, that will apply if InterCure is unable to continue operating as a going concern. For additional details regarding the Company's investment in InterCure, see Note 6c below.

NOTE 2:- BASIS OF PREPARATION OF THE CONDENSED FINANCIAL STATEMENTS

- a. The condensed consolidated financial information of the Company and its subsidiaries (the "**Group**") as of September 30, 2014 and 2013 and for the interim periods of nine and three months then ended ("**Interim Financial Information**") has been prepared in accordance with IAS 34, "Interim Financial Reporting" ("**IAS 34**") and includes the additional disclosure requirements in accordance with Chapter D of the Securities Regulations (Periodic and Immediate Reports), 1970. This Interim Financial Information does not contain all the information and disclosures that are required in the framework of the annual financial statements. This Interim Financial Information should be read in conjunction with the annual financial statements for 2013 and the accompanying notes which have been prepared in accordance with International Financial Reporting Standards ("**IFRS**") and included the additional disclosure requirements in accordance with the Israeli Securities Regulations (Annual Financial Statements), 2010.
- b. Estimates – the preparation of the interim financial statements requires the Group's management to make judgments and to use accounting estimates and assumptions that have an effect on the application of the Group's accounting policies and on the reported amounts of assets, liabilities and expenses. Actual results could differ from those estimates.

In the preparation of these condensed consolidated interim financial statements, the significant judgment exercised by management in applying the Group's accounting policies and the uncertainties involved in the key sources of the estimates were identical to those in the annual consolidated financial statements for the year ended December 31, 2013.

NOTE 3: SIGNIFICANT ACCOUNTING POLICIES

The Group's significant accounting policies and methods of computation adopted in the preparation of the interim financial information are consistent with those followed in the preparation of the annual financial statements for 2013, except for standards, amendments or interpretations to existing standards that became effective and that are mandatory for the accounting periods beginning January 1, 2014 as described below:

a. IAS 34 (Revised), "Interim Financial Reporting" ("**IAS 34R**):

IAS 34R, which forms part of the Annual Improvements document issued in May 2012, clarifies the disclosure requirements in interim financial reporting regarding segment assets and segment liabilities. According to IAS 34R, disclosure must be provided in the interim financial statements for the measure of total assets and total liabilities attributed to a certain reporting segment if these amounts are regularly provided to the Chief Operating Decision Maker ("**CODM**") and in the event of a material change in the measures already disclosed in respect of said reporting segment in the latest annual financial statements.

The Group has adopted IAS 34R for the first time for the annual period commencing on January 1, 2013. The initial adoption of IAS 34R did not have a material impact on the Group's consolidated financial statements.

b. IAS 36, "Impairment of Assets" ("**IAS 36**):

These amendments remove the unintended consequences of IFRS 13 Fair Value Measurement on the disclosures required under IAS 36 Impairment of Assets. In addition, these amendments require disclosure of the recoverable amounts for the assets or cash-generating units (CGUs) for which an impairment loss has been recognized or reversed during the period. The Group early adopted these disclosure requirements in the annual consolidated financial statements for the year ended December 31, 2013.
