Although, due to the ongoing uncertainty around the scope and duration of the Coronavirus, as of the financial statement publication date, there is uncertainty regarding its impact on the economy and the market state at all, and those impacts on the value of the securities held by the Company.

The Company is monitoring and will continue to monitor the developments around the world in connection with the spread of the Coronavirus, and will examine the implications for its activities.

Financial Overview

XTL reported approximately \$3.75 million in cash and cash equivalents as of September 30, 2020 and approximately \$2.08 million in other current assets (mainly marketable securities). The decrease of \$0.70 million since December 31, 2019, in cash and cash equivalents derives from operating expenses.

Research and development expenses for the nine months ended September 30, 2020 were \$26 thousand compared to \$27 thousand for the corresponding period in 2019.

General and administrative expenses for the nine months ended September 30, 2020 were \$665 thousand compared to \$571 thousand for the corresponding period in 2019. The increase of \$94 thousand derives mainly from replacing the CEO of the Company and from an increase in the insurance costs for companies in the field.

Finance expenses, net for the nine months ended September 30, 2020 were \$296 thousand compared to finance income, net of \$361 thousand for the corresponding period in 2019. The difference is primarily from revaluation of marketable securities.
