

Soiltech to perform fluid treatment and other services on Deepsea Yantai

8.1.2026 13:54:32 CET | Soiltech ASA | Additional regulated information required to be disclosed under the laws of a member state

Soiltech ASA (OSE: STECH)

Sandnes, Norway, 08. January 2026

Soiltech ASA will perform fluid treatment, onshore waste handling and associated services on the harsh environment semisubmersible rig Deepsea Yantai on the NCS, under contracts with DNO, Wellesley Petroleum, and Well Expertise. Startup is expected to be in the first quarter of 2026, with an expected duration until year-end 2026. This is estimated to be a large contract¹ for Soiltech.

“We look forward to working with our clients on these exciting projects. By utilising our market-leading treatment technologies, we can reduce and recover waste in a highly efficient and cost-effective manner, enabling more sustainable project execution and responsible resource management,” says Jan Erik Tveteraas, Soiltech’s CEO.

1. Contract sizes

A sizable contract has an estimated value of MNOK 5 – 10

A substantial contract has an estimated value of MNOK 10 – 20

A large contract has an estimated value above MNOK 20
