### Earnings Forecast

AGRANA now forecasts a slight increase in operating profit (EBIT) for its 2015|16 financial year (1 March 2015 to 29 February 2016) in comparison to the prior year (2014|15: EUR 121.7 million).

Due to higher forecast prices for bioethanol and a balanced result in the Sugar segment, the EBIT forecast for the full financial year has again been raised. With regards to Group revenues, AGRANA continues to expect stable development (2014|15: EUR 2,493.5 million).

The publication of the financial results for the first three quarters of 2015|16, including further details regarding the outlook for 2015|16, is planned as scheduled on 13 January 2016.
