Today, AGRANA Beteiligungs-Aktiengesellschaft, Friedrich-Wilhelm-Raiffeisen-Platz 1, 1020 Vienna, ("AGRANA") successfully completed the institutional pre-placement launched yesterday of up to 1,316,720 new AGRANA shares (ISIN AT0000603709) and up to 500,000 existing AGRANA shares directly held by Südzucker AG (the "Base Shareholder Offer Shares"). A total of 1,316,720 new AGRANA shares and 500,000 existing AGRANA shares directly held by Südzucker AG was placed with selected institutional investors outside the United States of America. As a result of the institutional pre-placement, the free float increases to 18.4%.

The offer price for the AGRANA shares placed in the institutional pre-placement and for the new AGRANA shares yet to be issued in the rights offering was set at EUR 100. As a result, AGRANA generated gross proceeds of EUR 131.67 million and Südzucker AG generated gross proceeds of EUR 50 million for its existing AGRANA shares sold in the institutional pre-placement.

The AGRANA shares placed in the institutional pre-placement are expected to be delivered on 7 February 2017 against payment of the offer price.

The institutional pre-placement comprises the first tranche of the cash capital increase of in aggregate up to 1,420,204 new AGRANA shares in two tranches which AGRANA announced yesterday. The remaining up to 103,484 new AGRANA shares from the second tranche of the cash capital increase will be offered to AGRANA free float-shareholders who have not waived their subscription rights during the subscription period which is expected to commence on 2 February 2017 and to end on 16 February 2017 at the subscription price of EUR 100 per new AGRANA share (ISIN of the subscription rights: AT0000A1TEP8). The existing AGRANA shares will be traded "ex subscription right" from 2 February 2017 onwards.

New AGRANA shares not subscribed for in the rights offering will be offered for purchase to selected institutional investors in the course of private placements in and outside Austria and outside the United States of America at the offer price (the "Rump Placement"). The final number of new AGRANA shares issued in the course of the cash capital increase will be determined upon completion of the Rump Placement by AGRANA, Südzucker as well as the underwriting banks Berenberg, BNP Paribas, Erste Group and Raiffeisen Bank International (the "Underwriters") and will be published immediately.

Based on an offer price of EUR 100 per new AGRANA share and assuming that all 103,484 new AGRANA shares which have not already been placed in the

institutional pre-placement will be subscribed for in the rights offering or will be placed in the Rump Placement, AGRANA would generate total anticipated net offering proceeds of approximately EUR 137.04 million. If all 1,420,204 new AGRANA shares and after all 500,000 existing AGRANA shares directly offered by Südzucker AG are placed in the offering, free float would increase to approximately 18.9%.
