"We ended the year with solid results, continuing our journey to achieve our business plan financial targets. Financial performance in 2024 benefited from positive price realisation and diligent cost management, which largely offset the impact of lower volumes experienced by some of the industries where we compete. The Adjusted EBIT margin of Industrial Activities stood at 5.7%, 30 basis points higher than full year 2023. Our free cash flow generation ended the year at €402 million.

We are reconfirming our full year 2025 preliminary forecast for heavy-duty trucks in Europe at between 280-290 thousand registrations, signalling a stabilisation of the market. For medium-duty trucks we expect volumes to be slightly down vs 2024. For light-duty trucks, our European industry forecast is mainly flat vs 2024. These forecasts reflect our expectations for a two-speed year: lower activity in the first half, with recovery in the second.

During Q4 2024 we continued to introduce our Model Year 2024 product line-up for Truck, maintaining a strong pricing discipline. Feedback from customers was positive and confirmed by our heavy-duty truck order intake, which was substantially up both sequentially and year-over-year. We kept production capacity below market demand, supporting dealers with the phase-out of Model Year 2022. The transition to Model Year 2024 will be largely completed by the first quarter of 2025 – as communicated earlier.

Bus continued to execute on its strong order book and ramped up deliveries of electric city buses, which reached 14.2% of the European market by year end – ranking it second in the segment. Powertrain continued managing its cost base, enabling it to end the year with an adjusted EBIT margin up year-over-year, while continuing to increase third-party customers. Defence saw double-digit margins as the business unit is delivering its full multi-year order book.

In 2025 and 2026 we will accelerate the implementation of our Efficiency Programme and reprioritise certain investments with the aim of reducing our operational spending without affecting our product plan – equating to saving of €300 million (CapEx and OpEx) compared to full year 2024 actuals.

Furthermore, in view of the different trends in the commercial vehicles and defence markets, and the increasingly different requirements for the long-term success of both businesses, the Board of Directors is considering separating Iveco Group's Defence business, comprising the IDV and ASTRA brands and related activities, during 2025 through a spin-off. A separation could simplify the Group structure, increase management focus and create strategic flexibility for both businesses. The Board will provide an update on the outcome of this assessment in the coming months. Any steps post the assessment remain subject to the required internal and regulatory approvals.

Finally, let me reconfirm that we are proceeding at full force into 2025 with an unwavering focus on quality, operational efficiency and diligent pricing management."

Iveco Group consolidated financial results included in this press release are prepared in accordance with EU-IFRS.

On 13th March 2024, Iveco Group and Mutares SE & Co. KGaA announced the signing of a definitive agreement for the transfer of ownership of Magirus GmbH and its affiliates performing Fire Fighting business. The transfer was completed on 3rd January 2025. According to IFRS 5 Non-current Assets Held for Sale and Discontinued Operations, as the sale became highly probable in March 2024, the Fire Fighting business met the criteria to be classified as a disposal group held for sale and discontinued operations. 2024 financial data shown in this press release refers to continuing operations only, unless otherwise stated. In accordance with applicable accounting standards, the figures in the Income Statement and Statement of Cash Flows for 2023 comparative periods have been recast consistently.

Dividends and Share Buyback

The Board of Directors of Iveco Group N.V. intends to recommend to the Company's shareholders an annual cash dividend of €0.33 per common share, totalling approximately €90 million. The proposed dividend remains subject to formal Board approval and the approval of the Annual General Meeting which will take place on 16th April 2025. If shareholders approve the annual dividend at the Annual General Meeting, it is anticipated that the record date for the dividend will be 23rd April 2025, with an ex-dividend date of 22nd April 2025 and payment on 24th April 2025.

The Board of Directors intends to submit to the same Annual General Meeting the authorisation to repurchase up to 10 million common shares for a total amount of up to €130 million, subject to market and business conditions, inter alia to serve the Company's equity incentive plans. The programme will replace the existing one (due to expire in October 2025) and will be funded by the Company's liquidity; it will last 18 months starting from the Shareholders' approval. Details of the programme will be disclosed in accordance with applicable laws and regulations.

2024 FY Group Performance and Results by Business Unit⁽¹⁾

Consolidated revenues amounted to **€15,289 million** compared to €15,978 million in 2023. **Net revenues of Industrial Activities** were **€14,948 million** compared to €15,640 million in 2023, with positive price realisation partially offsetting lower volumes in Truck and Powertrain.

Adjusted EBIT was **€982 million** (€11 million increase compared to 2023) with a **6.4% margin** (up 30 bps compared to 2023). **Adjusted EBIT of Industrial Activities** was **€851 million** (€849 million in 2023), with positive price realisation more than offsetting lower volumes. **Adjusted EBIT margin of Industrial Activities** was **5.7%** (up 30 bps compared to 2023), with margin improvements in Bus, Defence and Powertrain.

Adjusted net income was **€569 million** (up €181 million compared to 2023) after excluding from the €394 million reported net income, primarily the loss of €145 million from the transfer of the Fire Fighting business, €96 million in engine campaign costs, and a €94 million tax benefit due to the recognition of deferred tax assets in the German jurisdiction. **Adjusted diluted earnings per share** was **€2.09**, up €0.74 compared to 2023.

Net financial expenses amounted to **€211 million** (€443 million in 2023), an improvement of €232 million compared to 2023 mainly due to a more contained cost of hedge impact in Argentina, resulting from the implemented hedging strategy, and an improvement in the Argentinian hyperinflation accounting impact.

Reported income tax expense was €69 million, with an **adjusted Effective Tax Rate** (adjusted ETR⁽²⁾) of **26%** in 2024. The adjusted ETR reflects the different tax rates applied in the jurisdictions where the Group operates and some other discrete items.

Free cash flow of Industrial Activities was **positive at €402 million** (€450 million in 2023) as a result of an optimised management of production levels to adapt to a lower industry demand, and an effective hedging strategy to reduce the Argentinian foreign exchange exposure.

Available liquidity was **€5,474 million** as of 31st December 2024, up €726 million from 31st December 2023, including €1,900 million of undrawn committed facilities.

Notes:

(1) On 14th March 2024, during its Capital Markets Day, Iveco Group released a new segment reporting structure for its Continuing Operations, expanding its reportable segments from three segments (Commercial & Specialty Vehicles, Powertrain and Financial Services) to five reportable segments (Truck, Bus, Defence, Powertrain and Financial Services). The Truck, Bus and Defence business units, along with the Fire Fighting business unit (now reported as discontinued operations), were previously part of the Commercial and Specialty Vehicles segment. The following data reflects the new reporting structure. Comparative data has been recast to conform to the current year presentation.

(2) Comparison vs 30th September 2024.

Non-EU-IFRS Financial Information

Iveco Group monitors its operations through the use of several non-EU-IFRS financial measures. Iveco Group's management believes that these non-EU-IFRS financial measures provide useful and relevant information regarding its operating results and enhance the readers' ability to assess Iveco Group's financial performance and financial position. Management uses these non-EU-IFRS measures to identify operational trends, as well as make decisions regarding future spending, resource allocations and other operational decisions as they provide additional transparency with respect to our core operations. These non-EU-IFRS financial measures have no standardised meaning under EU-IFRS and are unlikely to be comparable to other similarly titled measures used by other companies and are not intended to be substitutes for measures of financial performance and financial position as prepared in accordance with EU-IFRS.

Iveco Group's non-EU-IFRS financial measures are defined as follows:

- Adjusted EBIT: is defined as EBIT before restructuring costs and non-recurring items. In particular, non-recurring items are specifically disclosed items that management considers rare or discrete events that are infrequent in nature and not reflective of on-going operational activities;
- Adjusted Net Income/(Loss): is defined as profit/(loss) for the period, less restructuring costs and non-recurring items, after tax;
- Adjusted Diluted EPS: is computed by dividing Adjusted Net Income/(Loss) attributable to Iveco Group N.V. by a weighted-average number of Common Shares outstanding during the period that takes into consideration potential Common Shares outstanding deriving from the Iveco Group share-based payment awards, when inclusion is not anti-dilutive. When Iveco Group provides guidance for adjusted diluted EPS, the Group does not provide guidance on an earnings per share basis because the EU-IFRS measure will include potentially significant items that have not yet occurred and are difficult to predict with reasonable certainty prior to year-end;
- Adjusted Income Taxes: is defined as income taxes less the tax effect of restructuring expenses and non-recurring items, and non-recurring tax charges or benefits.
- Adjusted Effective Tax Rate (Adjusted ETR): is computed by dividing a) adjusted income taxes by b) profit (loss) before income taxes, less restructuring expenses and non-recurring items;
- Free Cash Flow of Industrial Activities (or Industrial Free Cash Flow): refers to Industrial Activities, only, and is computed as consolidated cash flow from operating activities less: cash flow from operating activities of Financial Services; investments of Industrial Activities in property, plant and equipment and intangible assets; as well as other changes and intersegment eliminations;
- Net Cash (Debt) and Net Cash (Debt) of Industrial Activities: Net Cash (Debt) is defined as total Debt plus Derivative liabilities, net of Cash and cash equivalents, Derivative assets and other current financial assets (primarily current securities, short-term deposits and investments towards high-credit rating counterparties) and financial receivables from CNH deriving from financing activities and sale of trade receivables. Iveco Group provides the reconciliation of Net Cash (Debt) to Total (Debt), which is the most directly comparable EU-IFRS financial measure included in the Group's Consolidated Statement of Financial Position. Due to different sources of cash flows used for the repayment of the debt between Industrial Activities and Financial Services (by cash from operations for Industrial Activities and by collection of financing receivables for Financial Services), management separately evaluates the cash flow performance of Industrial Activities using Net Cash (Debt) of Industrial Activities; and
- Available Liquidity: is defined as cash and cash equivalents, including restricted cash, undrawn medium-term unsecured committed facilities, other current financial assets (primarily current securities, short-term deposits and investments towards high-credit rating counterparties), and financial receivables from CNH deriving from financing activities and sale of trade receivables.

Forward-looking statements are not guarantees of future performance. Rather, they are based on current views and assumptions and involve known and unknown risks, uncertainties and other factors, many of which are difficult to predict and/or are outside the Company's control. If any of these risks and uncertainties materialise (or they occur with a degree of severity that the Company is unable to predict) or other assumptions underlying any of the forward-looking statements prove to be incorrect, including any assumptions regarding strategic plans, the actual results or developments may differ materially from any future results or developments expressed or implied by the forward-looking statements. Factors, risks and uncertainties that could cause actual results to differ materially from those contemplated by the forward-looking statements include, among others: the continued uncertainties related to the unknown duration and economic, operational and financial impacts of ongoing and/or threatened international conflicts and geopolitical tensions; supply chain disruptions and global logistic constraints, including, industry capacity constraints, supplier viability issues, material availability and relevant price volatility; increased vulnerability to cybersecurity or data privacy incidents, also due to potential massive availability of Generative Artificial Intelligence; the many interrelated factors that affect consumer confidence and worldwide demand for capital goods and capital goods-related products, including demand uncertainty caused by current macroeconomic and geopolitical issues; changes in government policies regarding banking, monetary and fiscal policy; legislation, particularly pertaining to capital goods-related issues such as the environment, debt relief and subsidy program policies, trade and commerce and infrastructure development; government policies on international trade and investment, including sanctions, import quotas, capital controls and tariffs; volatility in international trade caused by the imposition of tariffs, sanctions, embargoes, and trade wars; actions of competitors in the various industries in which we compete; development and use of new technologies and technological difficulties; the interpretation of, or adoption of new, compliance requirements with respect to engine emissions, safety or other aspects of our products; production difficulties, including capacity and supply constraints and excess inventory levels; labour relations; interest rates and currency exchange rates; inflation and deflation; energy prices; our ability to obtain financing or to refinance existing debt; price pressure on new and used vehicles; the resolution of pending litigation and investigations on a wide range of topics, including dealer and supplier litigation, follow-on private litigation in various jurisdictions after the settlement of the EU antitrust investigation of the Iveco Group announced on 19th July 2016, intellectual property rights disputes, product warranty and defective product claims, and emissions and/or fuel economy regulatory and contractual issues; security breaches, cybersecurity attacks, technology failures, and other disruptions to the information technology infrastructure of Iveco Group and its suppliers and dealers; security breaches with respect to our products; further developments of geopolitical threats which could impact our operations, supply chains, distribution network, as well as negative evolutions of the economic and financial conditions at global and regional levels; political and civil unrest; volatility and deterioration of capital and financial markets, including other pandemics, terrorist attacks or acts of war in Europe and elsewhere; our ability to realise the anticipated benefits from our business initiatives as part of our strategic plan; our failure to realise, or a delay in realising, all of the anticipated benefits of our acquisitions, joint ventures, strategic alliances or divestitures and other similar risks and uncertainties, and our success in managing the risks involved in the foregoing.

Forward-looking statements are based upon assumptions relating to the factors described in this earnings release, which are sometimes based upon estimates and data received from third parties. Such estimates and data are often revised. Actual results may differ materially from the forward-looking statements as a result of a number of

risks and uncertainties, many of which are outside Iveco Group's control. Except as otherwise required by applicable rules, Iveco Group expressly disclaims any intention to provide, update or revise any forward-looking statements in this announcement to reflect any change in expectations or any change in events, conditions or circumstances on which these forward-looking statements are based. Further information concerning Iveco Group, including factors that potentially could materially affect Iveco Group's financial results, is included in Iveco Group's reports and public filings under applicable regulations.
