### Business Report

#### Business Performance for 2025

##### (1) 2025 Financial Summary

Consolidated Operating Revenue for YFC-BONEAGLE ELECTRIC CO., LTD. and its subsidiaries (the "Group") in 2025 was NT\$8,362,383 thousand, representing a decrease of NT\$1,737,290 thousand (17.20%) compared to NT\$10,099,673 thousand in 2024. The consolidated gross profit margin for 2025 was 29.04%, an increase of 2.8 percentage points from 26.24% in 2024. Consolidated net income after tax for 2025 was NT\$118,527 thousand, a decrease of NT\$17,384 thousand from NT\$135,911 thousand in 2024. Basic earnings per share (EPS) for 2025 was NT\$0.81, a decrease of NT\$0.12 compared to NT\$0.93 in 2024.

The decrease in YFC-BONEAGLE Group's net income after tax in 2025 compared to 2024 was primarily due to a 17.20% year-over-year decline in revenue, caused by customers delaying orders in response to U.S. tariffs. Despite a significant 2.8 % increase in gross profit margin resulting from the Group's product mix adjustments, overall profitability still experienced a slight decline compared to the previous year.

(2) Budget Execution: As the Company did not publicly disclose a financial forecast for FY2025, there is no analysis available.

#### (4) R&D

##### i. Power Cord and Power Cable:

Globally, there is a pursuit of "energy conservation and carbon reduction" to minimize environmental impact. This not only helps mitigate global warming but also enhances energy efficiency, reduces costs, and promotes sustainable development. By 2025, plans are in place to build a "green factory" in the Philippines, aligning with the global trend of energy conservation and carbon reduction, and to secure carbon credits. The goals are: (1) green manufacturing, (2) utilizing renewable energy, and (3) implementing a carbon credit management strategy. Through these methods, the company can collectively reduce carbon emissions and contribute to the sustainable development of the Earth.

In response to the U.S.-China trade war, the company is relocating its production facilities from China to the Philippines. The Company has met the supply requirements for the U.S. market in 2025. To sustain stable profitability, the Company will further enhance its management systems and material sourcing strategies, ensuring an uninterrupted supply chain for the future. Simultaneously, there will be a focus on developing new niche market products, with robust management and logistical support as the key to success.

##### ii. Lan Cable:

PoE (Power over Ethernet) technology enables the simultaneous transmission of data and electrical power over a standard LAN cable. This technology effectively streamlines network infrastructure and reduces installation costs. It is extensively integrated into the Company's core product offerings, including networking equipment, surveillance systems, and smart building solutions.

The market size of PoE (Power over Ethernet) has been growing steadily in recent years, primarily driven by the increasing demand for smart cities, IoT (Internet of Things) devices, and enterprise network infrastructure. According to market research reports, the PoE market is projected to expand at a stable CAGR (compound annual growth rate) in the coming years, covering applications such as IP cameras, wireless access points, VoIP phones, and other devices requiring power over Ethernet. With continuous technological advancements and enhanced standards (such as IEEE 802.3bt 60W-90W), the application scenarios and market potential of PoE will further expand.

In response to the increasing market application demands, there is a growing need for longer-distance (150-200M) PoE with higher power transmission. YFC will continue to develop PoE LAN cables that meet market demands for longer distances (150-200M) and high-power transmission.

The company will invest in new equipment (physical foaming machines) to enhance the electrical characteristics of cables, thereby increasing cable transmission rates (40G-100G network systems); and will continue to collaborate with internationally renowned raw material manufacturers (Formosa Plastics) to develop physical foaming high-frequency low-dielectric transmission cable materials. In response to climate change, the company will further invest in developing products that can be installed and wired under harsh weather conditions with low temperatures and UV resistance.

iii. New Energy Wire Harness:

New energy wire harnesses are primarily applied in solar power stations (PV DC Harness), battery energy storage systems (BESS), electric vehicles (EV High Voltage Harness), charging piles, wind power, and hydrogen energy equipment. With the accelerated development of new energy, wire harnesses have become a safety-critical material and core element for cost control components.

YFC provides highly weather-resistant, high-current, and long-life connection solutions for solar power systems. In terms of automotive wire harnesses, the company possesses mature production technology and capabilities. Currently, YFC has obtained certification from new energy customers and has officially entered the mass production stage.

iv. Robotics Wire Harness:

Wire harnesses for robotics and industrial automation are no longer limited to basic power and simple signal transmission; they now integrate Ethernet, control bus, and high-speed data transmission functions.

YFC provides customized wire harness solutions for automation equipment, robotics, and new energy machinery. These solutions integrate Ethernet networks and offer features such as anti-interference, high drag-chain flexibility (exceeding 1 million cycles), wear resistance, and harsh weather endurance. Currently, the company has successfully onboarded new customers, and new product development has entered the mass production stage.

## **Summary of 2026 Business Plan**

(1) Short-term Business Development Plan:

- i. Actively expand the group's external customer base, focusing on key customers for technical services, fostering deep cooperation, and expanding the product line.
- ii. Continuing expanding industrial cables, robotics, and automation-related wiring solutions, meeting customers' expectations for one-stop ordering by providing a diverse range of cables and wire harnesses and participating in renowned industry exhibitions in Europe and the US to enhance brand visibility and market exposure.
- iii. In response to the smart manufacturing trend, develop the industrial-grade network patch cord market to differentiate from the existing mid-to-low-end consumer market and traditional distribution channels.
- iv. Strengthen the focus on the European and Japanese industrial and smart production equipment markets, increasing the development and sales of industrial cables.
- v. Enhance the production efficiency of the Philippine plant, shorten product lead times, and respond to Trump's Tariff 2.0 by increasing the plant's capacity to supply North American customers and markets beyond North America.
- vi. Expanding industrial control cable production lines at the Philippines plant to support U.S. customers.

(2) Long-term Business Development Plan:

- i. Continue collaborating with the group's sub-brand, Prime, to develop new products.
- ii. Continued collaboration with a key third-party client to expand wire and cable product lines. This client has maintained a gross margin of over 30% for years. In 2025, due to tariff impacts, they progressively shifted orders from competitors to our Philippines plant and are continuously introducing new products. Sales revenue from this client in 2025 grew by 89% compared to 2024.
- iii. Leveraging Florida-based offices of Latin American companies to strengthen market promotion in South America. Given that several Latin American countries maintain representative offices in Florida due to its geographical advantage, we will utilize this channel to enhance our outreach.
- iv. Diversifying product lines at the Philippines plant in response to "Trump Tariffs 2.0" and the resulting fragmentation of global procurement markets. Beyond power cords and network patch cords, we are adding production lines for industrial control cables, micro-coaxial wires (ultra-fine wires), and other specialized products.
- v. Continue developing high-frequency automotive transmission cables for hybrid and pure electric smart vehicles.
- vi. Continuous development of Cross-linked Polyethylene (XLPE) cables. This aims to capture "box-wire" customers transitioning toward construction applications, while also

- meeting the requirements of industrial automation equipment clients.
- vii. Collaborate with factories to source environmentally friendly production and packaging materials, proactively promoting ESG-compliant solutions to customers.
  - viii. U.S. manufacturing or TAA (Trade Agreements Act) compliance may become a new market in the future, prompting the search for qualified suppliers for strategic sales partnerships.

**Impacted by the external competitive environment, regulatory changes, and the overall business climate:**

**(1) Geopolitical Impacts**

Looking ahead to 2026, the global economic and trade landscape has entered a "period of deepened supply chain restructuring following the imposition of U.S. tariffs." As U.S. tariffs worldwide become increasingly finalized, and in response to the long-term, institutionalized risks of tariff fluctuations, the company continues to prioritize the allocation of U.S. market orders to the ASEAN region while actively expanding our non-U.S. customer base.

**a. Comprehensive Capacity Upgrade to Capture the U.S. Market:**

Looking ahead to 2026, the company will establish our self-owned factory in the Philippines as our core strategic hub. By leveraging capacity expansion, in-house production, and the Group's integrated sales advantages, we are fully committed to penetrating and capturing a larger share of the U.S. market. While effectively bypassing high tariffs, we aim to secure orders from leading U.S.-based clients, transforming our Philippine production base into the most powerful engine for the Group's revenue growth.

**b. Integrating the ASEAN "Friend-shoring" Ecosystem:**

The company is not only actively expanding its pool of qualified suppliers in Vietnam and Thailand but is also elevating these collaborations from simple outsourcing to "strategic partnerships" to bolster supply chain resilience.

Through the deep integration of our self-owned capacity in the Philippines with the external ASEAN supply chain, YFC-BONEAGLE ELECTRIC CO., LTD. has established a highly adaptive global operating model. This not only significantly mitigates the uncertainties brought by geopolitics but also enables us to broaden our customer base, ensuring the Group can deliver exceptional business performance throughout the highly volatile year of 2026.

**(2) Sustainability and Carbon Reduction Initiatives**

The company has established Sustainable Development Committee: Responsible for

supervising the cross-functional implementation task force directed by the Management Center, and fully implementing goals related to environmental, social, and corporate governance (ESG). While pursuing business growth, we are committed to fulfilling corporate responsibility and achieving long-term sustainability.

To meet customer expectations for carbon reduction management and in response to the global goal of net-zero emissions by 2050, the company has completed a baseline greenhouse gas (GHG) emissions inventory and set reduction targets. Future efforts will include optimizing production management, implementing energy-saving and carbon-reduction measures, and planning for the use of renewable energy. Through full-process management, we aim to improve energy and resource efficiency, enhance market competitiveness, and reduce the company's carbon footprint.

In response to global climate change, governments—including the EU—are introducing carbon reduction regulations, raising the cost of carbon emissions to incentivize businesses to reduce GHG output. As a result, customer demand for energy-saving and carbon-reduction initiatives across the supply chain has grown.

To meet these expectations and align with the 2050 global net-zero target, the company has begun auditing its GHG emissions. It will continue to develop and implement carbon reduction goals by optimizing production, establishing carbon management systems, and managing energy and resource consumption throughout the entire process. This will support both enhanced market competitiveness and sustainable business development.

We sincerely thank all our shareholders for your longstanding support and encouragement. The entire YFC group management team and staff will continue to give their utmost efforts to achieve greater success.

Wishing all our shareholders good health and prosperity!

Sincerely,

Yeh Chun Rong  
Chairman

## **Independent Auditors’ Report**

To the Board of Directors of YFC-BONEAGLE ELECTRIC CO., LTD. :

### **Opinion**

We have audited the parent-company-only financial statements of YFC-BONEAGLE ELECTRIC CO., LTD. ( “the Company” ), which comprise the balance sheet as of December 31, 2025 and 2024, the statement of comprehensive income, changes in equity and cash flows for the years then ended, and parent-company-only notes to the financial statements, including a summary of material accounting policies.

In our opinion, the accompanying parent-company-only financial statements present fairly, in all material respects, the financial position of the Company as at December 31, 2025 and 2024, and its financial performance and its cash flows for the year then ended in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers.

### **Basis for Opinion**

We conducted our audits in accordance with the Regulations Governing Audit and Attestation of Financial Statements by Certified Public Accountants and Standards on Auditing of the Republic of China. Our responsibilities under those standards are further described in the Auditors’ Responsibilities for the Audit of the Parent-Company-Only Financial Statements section of our report. We are independent of the Company in accordance with The Norm of Professional Ethics for Certified Public Accountant of the Republic of China, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis of our opinion.

### **Key Audit Matters**

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the parent-company-only financial statements of the current period. These matters were addressed in the context of our audit of the parent-company-only financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matters described below to be the key audit matters to be communicated in our report.

## 1. Revenue recognition

Please refer to note (4)(n) for significant accounting policy related to revenue recognition. For the details of revenue, please refer to note (6)(t).

### Description of key audit matter:

The sale transactions of the Company are mainly under FOB shipping point terms. Transfers of risk and rewards generally occurs upon loading the goods onto the relevant carrier at the port. In addition, the company provide a part of customers discounts based on the agreement. Consequently, revenue recognition has been identified as a key audit matter.

### How the matter was addressed in our audit:

In relation to the key audit matter above, our audit procedures include:

- Testing the related controls surrounding revenue collection and assessing whether the revenue recognition policies comply with the accounting standards.
- Examining the agreements of selected customers to determine whether the accounting treatment is consistent with the contract terms and provisions stated.
- Performing trend analysis on major customers and products and compare the current actual sales with the prior one to determine whether any significant variances exist.
- Assessing the adequacy of the Company disclosures in respect of revenue recognition.

## 2. Investments accounted for using equity method

Please refer to note (4)(h) and (6)(e) for the significant accounting policies and the details of investments subsidiaries. Please refer to note (5) for uncertainties in accounting estimates and assumptions.

For instance, testing the changes on the investments accounted for using equity method in the current year, including the recognition of the shares of profit of subsidiaries accounted for using equity method and the shares of other comprehensive income, then comparing and analyzing the changes in the actual amounts of the previous and current year whether the investments accounted for using equity method evaluation policies comply with the accounting standards.
- Assessing the adequacy of the Company' s disclosures in respect of the investments accounted for using equity method.

## **Responsibilities of Management and Those Charged with Governance for the Parent-Company-Only Financial Statements**

Management is responsible for the preparation and fair presentation of the parent-company-only financial statements in accordance with Regulations Governing the Preparation of Financial Reports by Securities Issuers and for such internal control as management determines is necessary to enable the preparation of parent-company-only financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the parent-company-only financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance (including the Audit Committee) are responsible for overseeing the Company's financial reporting process.

## **Auditor's Responsibilities for the Audit of the Parent-Company-Only Financial Statements**

Our objectives are to obtain reasonable assurance about whether the parent-company-only financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Standards on Auditing of the Republic of China will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these parent-company-only financial statements.

As part of an audit in accordance with the Standards on Auditing of the Republic of China, we exercise professional judgment and professional skepticism throughout the audit. We also:

1. Identify and assess the risks of material misstatement of the parent-company-only financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
2. Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
3. Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
4. Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
5. Evaluate the overall presentation, structure and content of the parent-company-only financial statements, including the disclosures, and whether the parent-company-only financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

6. Obtain sufficient and appropriate audit evidence regarding the financial information of the investment in other entities accounted for using the equity method to express an opinion on the parent-company-only financial statements. We are responsible for the direction, supervision and performance of the audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the parent-company-only financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditors' report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

The engagement partners on the audit resulting in this independent auditors' report are Hsieh, Chiu-Hua and Lee, Fang-Yi.

Please refer to note (4)(n) for significant accounting policy related to revenue recognition. For the details of revenue, please refer to note (6)(r).

### Description of key audit matter:

The sale transactions of the Group are mainly under FOB shipping point terms. Transfers of risk and rewards generally occurs upon loading the goods onto the relevant carrier at the port. The Group's online retail company transfer their control over the goods upon delivery of the goods to customers due to the nature of the industry. In addition, the Group's private-label online retail company and wholesale companies provide customers discounts based on the agreements, and allow customers to return items within a specific period of time in accordance with the policy, resulting high sales discounts and returns amounts. Consequently, revenue recognition has been identified as a key audit matter.

### How the matter was addressed in our audit:

In relation to the key audit matter above, our audit procedures include:

- Testing the related controls surrounding revenue collection and assessing whether the revenue recognition policies comply with the accounting standards.
- Examining the agreements of selected customers to determine whether the accounting treatment is consistent with the contract terms and provisions stated.
- Performing trend analysis on major customers and products and compare the actual sales with the prior one to determine whether any significant variances exist.
- Testing the accuracy and appropriateness of management's calculation of sales discounts and returns by estimating them based on the actual sales discounts and returns in the previous years; examining subsequent sale returns to assess whether there are any significant differences.
- Assessing the adequacy of the Group's disclosures in respect of revenue recognition.

## 2. Impairment assessment of inventory

Please refer to note (4)(h) for significant accounting policies of inventory valuation. For the inventory disclosures, please refer to note (6)(d).

For uncertainties in accounting estimates and assumptions, please refer to note (5).

### Description of key audit matter:

Inventories of the Group are measured at the lower of cost and net realizable value. Inventory valuation loss is recognized for inventories exceeding specific stock ages or identified as obsolete stocks. Since copper is vulnerable to the impact of rapid price changes in the international market, there is a risk that the carrying value of inventories may exceed its net realizable value. In addition, the sales of online retail and wholesale subsidiaries are strongly influenced by preferences of customers, resulting in short product life-cycles and challenging inventory management. Therefore, the valuation of inventory has been identified as a key audit matter.

#### How the matter was addressed in our audit:

In relation to the key audit matter above, our audit procedures include:

- Obtaining complete aging analysis of inventories and analyzing changes therein; assessing the appropriateness of provisions.
- Understanding the assumptions used by management in determining net realizable value and evaluating its reasonableness.
- Assessing the adequacy of the Group' s disclosures in respect of inventory.

#### **Other Matter**

YFC-BONEAGLE ELECTRIC CO., LTD. has prepared its parent-company-only financial statements as of and for the years ended December 31, 2025 and 2024, on which we have issued an unqualified opinion.

#### **Responsibilities of Management and Those Charged with Governance for the Consolidated Financial Statements**

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with Regulations Governing the Preparation of Financial Reports by Securities Issuers and with the IFRSs, IASs, IFRC, SIC endorsed and issued into effect by the Financial Supervisory Commission of the Republic of China, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the Group' s ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

Those charged with governance (including the Audit committee) are responsible for overseeing the Group' s financial reporting process.

#### **Auditor' s Responsibilities for the Audit of the Consolidated Financial Statements**

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor' s report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Standards on Auditing of the Republic of China will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with the Standards on Auditing of the Republic of China, we exercise professional judgment and professional skepticism throughout the audit. We also:

1. Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
2. Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group' s internal control.

3. Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
4. Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
5. Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
6. Obtain sufficient and appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditors' report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

The engagement partners on the audit resulting in this independent auditors' report are Hsieh, Chiu-Hua and Lee, Fang-Yi.

  - (3) The meeting notice shall specify the time during which shareholder attendance registrations will be accepted, the place to register for attendance, other matters for attention, and the agenda.
  - (4) When the Company holds a shareholders' meeting, it may allow the shareholders to exercise voting rights by correspondence or electronic means. None of the above matters may be raised by an extraordinary motion. The essential contents may be posted on the website designated by the competent authority in charge of

securities affairs or the Company, and such website shall be indicated in the above notice.

- (6) If the reasons for convening the shareholders' meeting have specified the full re-election of directors and the take office date, after the full re-election of directors has completed, the take office date shall not be changed by making an extraordinary motion or by any other methods.
- (7) A shareholder holding one percent or more of the total number of issued shares may submit to the Company a proposal for discussion at a regular shareholders' meeting. The number of items so proposed is limited to one only and no proposal containing more than one item will be included in the meeting agenda. If a shareholder may propose a recommendation for urging the corporation to promote public interests or fulfill its social responsibilities, the board of directors shall include it in the meeting agenda. When the circumstances of any subparagraph of Article 172-1, paragraph 4 of the Company Act apply to a proposal put forward by a shareholder, the board of directors may exclude it from the agenda.

Article 4 Attendance to Shareholders' Meeting by Representation and Revocation of Proxy.

- (1) For each shareholders' meeting, a shareholder may appoint a proxy to attend the meeting by providing the proxy form issued by the Company and stating the scope of the proxy's authorization.
- (2) A shareholder may issue only one proxy form and appoint only one proxy for any given shareholders' meeting, and shall deliver the proxy form to the Company 5 days before the date of the shareholders' meeting. When duplicate proxy forms are delivered, the one received earliest shall prevail unless a declaration is made to cancel the previous proxy appointment.
- (3) After a proxy form has been delivered to the Company, if the shareholder intends to attend the meeting in person, a written notice of proxy cancellation shall be submitted to the Company 2 business days before the meeting date. If the cancellation notice is submitted after that time, votes casted at the meeting by the proxy shall prevail.

Article 5 Principles determining the time and place of a shareholders' meeting.

Venue for a shareholders' meeting shall be the premises of the Company, or a place easily accessible to shareholders and suitable for a shareholders' meeting. The meeting may begin no earlier than 9 a.m. and no later than 3 p.m. Full consideration shall be given to the opinions of the independent directors with respect to the place and time of the meeting. The time during which shareholder attendance registrations will be accepted, as stated in the preceding paragraph, shall be at least 30 minutes prior to the time the meeting commences. The place at which attendance registrations are accepted shall be clearly marked and a sufficient number of suitable personnel assigned to handle the registrations.

Article 6 Preparation of attendance book and other necessary documents.

- (1) Shareholders and their proxies (hereinafter collectively referred to as "shareholders")

shall attend shareholders meetings based on attendance cards, sign-in cards, or other certificates of attendance. Solicitors soliciting proxy forms shall also bring identification documents for verification.

- (2) Company shall furnish the attending shareholders with an attendance book to sign, or attending shareholders may hand in a sign-in card in lieu of signing in.
- (3) The Company shall furnish attending shareholders with the meeting agenda book, annual report, attendance card, speaker's slips, voting slips, and other meeting materials. Where there is an election of directors, pre-printed ballots shall also be furnished.
- (4) When the government or a juristic person is a shareholder, it may be represented by more than one representative at a shareholders' meeting. When a juristic person is appointed to attend as proxy, it may designate only one person to represent it in the meeting.

Article 7      The chairman and non-voting participants of a shareholders' meeting.

- (1) If a shareholders' meeting is convened by the board of directors, the meeting shall be chaired by the chairman of the board. When the chairman of the board is on leave or for any reason unable to exercise the powers of the chairman, the vice chairman shall act in place of the chairman; if there is no vice chairman or the vice chairman also is on leave or for any reason unable to exercise the powers of the vice chairman, the chairman shall appoint one of the directors to act as chair. Where the chairman does not make such a designation, the directors shall select from among themselves one person to serve as chair.

When a director serves as chair, as referred to in the preceding paragraph, the director shall be one who has held that position for six months or more and who understands the financial and business conditions of the company. The same shall be true for a representative of a juristic person director that serves as chair.

- (2) It is advisable that shareholders meetings convened by the board of directors be attended by a majority of the directors.
- (3) If a shareholders' meeting is convened by a party with power to convene but other than the board of directors, the convening party shall chair the meeting. When there are two or more such convening parties, they shall mutually select a chair from among themselves.
- (4) The Company may appoint its attorneys, certified public accountants, or related persons retained by it to attend a shareholders' meeting in a non-voting capacity.

Article 8      Documentation of a shareholders' meeting by audio or video.

The Company shall make an uninterrupted audio and video recording of the full proceedings of the shareholders' meeting and the recorded materials shall be retained for at least 1 year. If, however, a shareholder files a lawsuit pursuant to Article 189 of the Company Act, the recording shall be retained until the conclusion of the litigation.

Article 9      Number of shares present in a shareholders' meeting.

- (1) Attendance at shareholders meetings shall be calculated based on numbers of shares.  
The number of shares in attendance shall be calculated according to the shares indicated by the attendance book and sign-in cards handed in plus the number of shares whose voting rights are exercised by correspondence or electronically.
- (2) The chairman shall call the meeting to order at the scheduled meeting time and disclose information concerning the number of nonvoting shares and number of shares represented by shareholders attending the meeting.  
However, when the attending shareholders do not represent a majority of the total number of issued shares, the chairman may announce a postponement, provided that no more than two such postponements, for a combined total of no more than 1 hour, may be made. If the quorum is not met after two postponements and the attending shareholders still represent less than one third of the total number of issued shares, the chairman shall declare the meeting adjourned.
- (3) If the quorum is not met after two postponements as referred to in the preceding paragraph, but the attending shareholders represent one third or more of the total number of issued shares, a tentative resolution may be adopted pursuant to Article 175, paragraph 1 of the Company Act; all shareholders shall be notified of the tentative resolution and another shareholders' meeting shall be convened within 1 month.
- (4) When, prior to the conclusion of the meeting, the attending shareholders represent a majority of the total number of issued shares, the chairman may resubmit the tentative resolution for a vote by the shareholders' meeting pursuant to Article 174 of the Company Act.

Article 10     Discussion of proposals.

- (1) If a shareholders' meeting is convened by the board of directors, the meeting agenda shall be set by the board of directors. Relevant proposals, including extemporary motions and amended proposals, shall be voted for resolutions case by case. The meeting shall proceed in the order set by the agenda, which may not be changed without a resolution of the shareholders' meeting.
- (2) The provisions of the preceding paragraph apply mutatis mutandis to a shareholders' meeting convened by a party with the power to convene that is not the board of directors.
- (3) The chairman may not declare the meeting adjourned prior to completion of deliberation on the meeting agenda of the preceding two paragraphs (including extraordinary motions), except by a resolution of the shareholders' meeting.
- (4) The chairman shall allow ample opportunity during the meeting for explanation and discussion of proposals and of amendments or extraordinary motions put forward by the shareholders; when the chairman is of the opinion that a proposal has been discussed sufficiently to put it to a vote, the chairman may announce the discussion

closed and call for a vote and arrange adequate time for voting.

Article 11 Shareholder speech.

- (1) Before speaking, an attending shareholder must specify on a speaker's slip the subject of the speech, his/her shareholder account number (or attendance card number), and account name. The order in which shareholders speak will be set by the chair.
- (2) A shareholder in attendance who has submitted a speaker's slip but does not actually speak shall be deemed to have not spoken. When the content of the speech does not correspond to the subject given on the speaker's slip, the spoken content shall prevail.
- (3) Except with the consent of the chair, a shareholder may not speak more than twice on the same proposal, and a single speech may not exceed 3 minutes. If the shareholders' speech violates the rules or exceeds the scope of the agenda item, the chairman may terminate the speech.
- (4) When an attending shareholder is speaking, other shareholders may not speak or interrupt unless they have sought and obtained the consent of the chairman and the shareholder that has the floor; the chairman shall stop any violation.
- (5) When a juristic person shareholder appoints two or more representatives to attend a shareholders' meeting, only one of the representatives so appointed may speak on the same proposal.
- (6) After an attending shareholder has spoken, the chairman may respond in person or direct relevant personnel to respond.

Article 12 Calculation of voting shares and recusal system.

- (1) Voting at a shareholders' meeting shall be calculated based the number of shares.
- (2) With respect to resolutions of shareholders meetings, the number of shares held by a shareholder with no voting rights shall not be calculated as part of the total number of issued shares. When a shareholder is an interested party in relation to an agenda item, and there is the likelihood that such a relationship would prejudice the interests of the Company, that shareholder may not vote on that item, and may not exercise voting rights as proxy for any other shareholder. The number of shares for which voting rights may not be exercised under the preceding paragraph shall not be calculated as part of the voting rights represented by attending shareholders.
- (3) With the exception of a trust enterprise or a shareholder services agent approved by the competent securities authority, when one person is concurrently appointed as proxy by two or more shareholders, the voting rights represented by that proxy may not exceed 3% of the voting rights represented by the total number of issued shares. If that percentage is exceeded, the voting rights in excess of that percentage shall not be included in the calculation.

Article 13 Voting on proposals, vote monitoring and vote counting.

- (1) A shareholder shall be entitled to one vote for each share held, except when the shares are restricted shares or are deemed non-voting shares.

- (2) When convening a shareholders' meeting, the Company shall adopt exercise of voting rights by electronic means and may adopt exercise of voting rights by correspondence. The method of exercise shall be stated in the notice of the shareholders' meeting. A shareholder exercising voting rights by correspondence or electronic means will be deemed to have attended the meeting in person, but to have waived his/her rights with respect to the extraordinary motions and amendments to original proposals of that meeting. Therefore, the Company should avoid making extraordinary motions and amendments to original proposals.
- (3) A shareholder intending to exercise voting rights by correspondence or electronic means under the preceding paragraph shall deliver a written declaration of intent to the Company 2 business days before the date of the shareholders' meeting. When duplicate declarations of intent are delivered, the one received earliest shall prevail, except when a declaration is made to cancel the earlier declaration of intent.
- (4) After a shareholder has exercised voting rights by correspondence or electronic means, in the event the shareholder intends to attend the shareholders' meeting in person, a written declaration of intent to retract the voting rights already exercised under the preceding paragraph shall be made known to the Company, by the same means by which the voting rights were exercised, before 2 business days before the date of the shareholders' meeting. If the notice of retraction is submitted after that time, the voting rights already exercised by correspondence or electronic means shall prevail. When a shareholder has exercised voting rights both by correspondence or electronic means and by appointing a proxy to attend a shareholders' meeting, the voting rights exercised by the proxy in the meeting shall prevail.
- (5) Except as otherwise provided in the Company Act and in the Company's Articles of Incorporation, the passage of a proposal shall require an affirmative vote of a majority of the voting rights represented by the attending shareholders. At the time of a vote, for each proposal, the chairman or a person designated by the chairman shall announce the total number of voting rights represented by the attending shareholders.
- (6) Proposals shall be voted by a poll of the shareholders. After the conclusion of the meeting, on the same day it is held, the results for each proposal, based on the numbers of votes for and against and the number of abstentions, shall be entered into the Market Observation Post System.
- (7) When there is an amendment or an alternative to a proposal, the chairman shall present the amended or alternative proposal together with the original proposal and decide the order in which they will be put to a vote. When any one among them is passed, the other proposals will then be deemed rejected and no further voting shall be required.
- (8) Vote monitoring and counting personnel for the voting on a proposal shall be appointed by the chair, provided that all monitoring personnel shall be shareholders of the Company.

Vote counting shall be conducted in public at the place of the shareholders' meeting. Immediately after vote counting has been completed, the results of the voting shall be announced on-site at the meeting, and a record made of the vote.

- (2) The ballots for the election referred to in the preceding paragraph shall be sealed with the signatures of the monitoring personnel and kept in proper custody for at least 1 year. If, however, a shareholder files a lawsuit pursuant to Article 189 of the Company Act, the ballots shall be retained until the conclusion of the litigation.

Article 15 Meeting Minutes and Signatures.

- (1) Matters relating to the resolutions of a shareholders' meeting shall be recorded in the meeting minutes. The meeting minutes shall be signed or sealed by the chairman of the meeting and a copy distributed to each shareholder within 20 days after the conclusion of the meeting. The meeting minutes may be produced and distributed in electronic form. Company may distribute the meeting minutes of the preceding paragraph by means of a public announcement made through the Market Observation Post System.
- (2) The meeting minutes shall accurately record the year, month, day, and place of the meeting, the chair's full name, the methods by which resolutions were adopted, and a summary of the deliberations and the voting results, including the statistical weights, and the number of the voting rights of each candidate when electing directors, and shall be retained for the duration of the existence of the Company.
- (3) The resolution manners under the previous paragraph shall be voted by the shareholders case-by-case and the results of the votes shall be specified in the minutes.

Article 16 Public disclosure.

- (3) If a shareholder attempts to speak through any device other than the public address equipment set up by the Company, the chairman may prevent the shareholder from so doing.
- (4) When a shareholder violates the rules of procedure and defies the chair’s correction, obstructing the proceedings and refusing to heed calls to stop, the chairman may direct the proctors or security personnel to escort the shareholder from the meeting.

Article 18 Recess and resumption of a shareholders’ meeting.
