

EANS-Adhoc: Kapsch TrafficCom AG / Kapsch TrafficCom receives order for a nationwide electronic toll collection system in Belarus - Contract value for implementation of the system at EUR 267 million

ad-hoc disclosure transmitted by euro adhoc with the aim of a Europe-wide distribution. The issuer is solely responsible for the content of this announcement.

Vienna/Minsk, 29 February 2011 - Kapsch TrafficCom AG (ISIN AT000KAPSCH9), listed on the Vienna Stock Exchange in the prime market segment, received the order for the implementation and operation of a nationwide electronic toll collection system in Belarus.

The agreement signed by Mr. Erwin Toplak, Chief Operating Officer of Kapsch TrafficCom AG, and Mr. Ivan I. Shcherbo, Minister for Transportation and Communication of the Republic of Belarus, today extends over a total road network of 2,743km and contains both the implementation of a dedicated short-range communication based system as well as the operation over 20 years. The total contract value for the implementation of the system reaches approximately EUR 267 million, out of which EUR 158 million fall upon the first two phases within the next two years.

The first phase of the system shall start operation on 1 July 2013. Each phase will be financed and implemented by Kapsch TrafficCom and reimbursed within three years from the start of the operation.

"The introduction of such advanced toll collection system shows a serious approach to make a substantial contribution for infrastructure development to support the growth of economy of the Republic of Belarus.", says Erwin Toplak, Chief Operating Officer of Kapsch TrafficCom AG

end of ad-hoc-announcement

=====

Kapsch TrafficCom is an international supplier of superior intelligent transportation systems (ITS) and primarily supplies electronic toll collection (ETC) systems.
