Financial Figures/Balance Sheet  
20.07.2019

Vienna - According to the already given outlook, the course of the 2019/20 fiscal year will be similar to that of the one before: a weaker first half-year period should be followed by a strong second half. This seasonality seems to have a stronger than expected impact on the operating result (EBIT) in Q1 2019/20. It will likely amount to approximately EUR 4.6 million (previous year: EUR 7.1 million). A further negative impact may arise from the consolidation of the not yet finally available results of the German operations. On the other hand, revenues in Q1 2019/20 will reach approximately EUR 186 million, a significant increase over the same period in the previous year (EUR 158.2 million).

The company confirms the outlook for the fiscal year 2019/20 (increase of both revenues and EBIT by at least 5%).

The results of Kapsch TrafficCom for the first quarter 2019/20 will be published on August 20, 2019.
