DIMET IR024/2568

August 13, 2025

Subject: Correction Regarding Classification as an Investment Company

To: Director and Manager, The Stock Exchange of Thailand

Based on the audited financial statements as of December 31, 2024, which were reviewed by the audit committee, the Company had total investments of THB 134,820,479, representing 48.14% of total consolidated assets. This proportion classifies the Company as engaging in investment management activities (Investment Company), exceeding the 40% threshold of total consolidated assets under the Securities and Exchange Commission's (SEC) Notification No. N.P. 5/2566 regarding guidelines for considering investments by companies engaged in investment management business, and the related criteria of the Stock Exchange of Thailand.

However, referencing the financial statements for the six-month period ended June 30, 2025, the balance of investments as of June 30, 2025, amounted to THB 103,998, representing 35.29% of total consolidated assets. This level indicates that the Company no longer meets the criteria for being classified as an Investment Company.

Please be informed accordingly.

Yours sincerely,

-Mr. Ho-Chih Huang-

(Mr.Ho-Chih Huang)

Chief Executive Officer
